GERMAN FLIERS START HOP

CHAMBERLIN, FAMOUS AVIATOR, IS CITY'S GUEST

Will Knows Where Ford Got His Idea; From Irish Donkey

(Special To The News)

OBERLIN, O., April 12. — I see where Henry Ford wouldn't visit Ireland till they took their tariff off something or other. That ought to keep about everybody from visiting this country.

I think Uncle Henry has a tough time competing with those jaunting cars in Ireland. And he can make a billion cars, but he will never make as good ones as those little donkeys.

No overhauling, no tire trouble, nor carburetor adjustment, no insurance, no depreciation, no upkeep and they can carry more and pull more than any Ford ever built.

In fact, those donkeys is where Ford got his idea of his car.

Vivi Ireland!

Yours,
SHAMUS ROGERS.

PA NEWC OBSERVES

The chicken hatching season is still in full swing, if one is to judge by the noise that is to be heard at the post-office. Young chicks are still being shipped through the post office in large numbers.

Workmen are engaged in widening the section of North Mercer street in the vicinity of The News office today. News employes said goodbye to the curb lights that have been in use in front of the building ever since the new building was erected. These lights were given to the school board for use at some school building. A curb lighting system is to be placed on the street, which will replace the lights taken down.

And tomorrow is—Friday, the thirteenth!

Pa Newc has been presented a copy of the city handbook, prepared and published by the city engineer and his assistants. Mr. Miller has turned out an excellent piece of work. A city map, with every street designated, and a table showing how to quickly locate every street, in addition to other facts about the city, is included in the booklet. It will prove of value to many citizens.

Announcement that the German fliers have hopped off from Ireland in an effort to be first to span the Atlantic flying westward, adds interest to New Castle's observance of aviation day. It is to be hoped that these daring fliers will succeed in reaching the coast of America, even if they do not make the trip as far as New York.

What shall be done with the lawn at the library is the question that now is beginning to worry Miss Alice M. Sterling, the librarian. The grass is beginning to get greener every day; rose bushes are starting to sprout. In a few more days, she says the lawn will be seeded and rolled so that it will be in better shape this year than it was last. Over in one corner, lilac bushes are beginning to show signs of life. So, in the words of the forty-first immortal: it won't be long now.

At The Castleton they have a new night clerk, J. H. Vance, of Colgate and points to the east. It was last evening that one of the traveling men blooded him. As the man approached the desk, Mr. Vance asked him if he had a reservation. With a fishy stare the traveling man looked at the night clerk. Finally he spoke. "What do you think I am, an Indian?" he queried.

Those early birds, bound to catch the first worm, that came north early are having a hard time of it these cold, wet mornings. Feathers ruffed, they stand on telephone wires, and in place of singing, let out a few muffled chirps, just to show that they have confidence anyhow.

Today Clarence D. Chamberlin, New York to Germany flier, will come to New Castle under the auspices of the airport committee of the Chamber of Commerce. While he is here, it is up to the citizens of New Castle to show him honor. While the diminutive aviator has not received the

CLARENCE CHAMBERLIN

Flying here in his small plane from Warren, Pa., Clarence Chamberlin, New York-to-Berlin flier, landed at the Harlansburg road airport location early this afternoon. He left Warren shortly after noon and made excellent time on the trip to this city.

Quite a delegation of New Castle citizens was at the landing field to greet the famous flier.

Upon landing Chamberlin was met by an escort of honor consisting of prominent citizens of New Castle. He was taken to the steps of the Scottish Rite Cathedral, where with Mayor William H. Gillespie as chairman of the reception committee he was presented with a large solid key to the city. On one side of the key was engraved: "April 12, 1928—Presented to Clarence D. Chamberlin" while on the other side of the key is "New Castle, Pennsylvania, the World's Greatest Tin Plate Center."

The key was cast in the Shenango works of the American Sheet and Tin Plate company through the courtesy of David S. Pyle, general manager of the works and president of the New Castle Chamber of Commerce.

Speaks at Meetings.

After a brief ceremony Chamberlin will be taken to the auditorium of the Cathedral where he will address a gathering of the school children of the city and such adults as care to attend.

At 6:30 this evening the aviator will be guest of honor at a community banquet which will be held in the main dining room of the Scottish Rite Cathedral.

Again at 8:30 he will lecture in the auditorium. Ticket sales point to the fact that several hundred persons will attend the banquet.

This morning a large white circle was placed on the Harlansburg road

Discover Four Young People Drowned In Overturned Auto In Mill Race

BODIES RECOVERED IN SHORT WHILE

Believe Machine Plunged From Highway Into Small Stream During Storm

(International News Service)

WILMINGTON, Del., April 12.—Two young couples were drowned in a mill-race along Park Drive here during the night police revealed today with the finding of their automobile overturned in the creek. The machine is believed to have skidded off the drive during the sleet and snow last night.

The bodies were recovered early today and taken to the city morgue. The victims were thought to be Ernest Scott, Wilmington, Bernard Jackson, Newark, Del., Miss Eleanor Burnham, also of Newark and a girl believed to be Miss Burnham's sister. The youths were about 22 years of age and the girls about 18 years, police said.

The accident is believed to have occurred about 11 oclock last night as a wrist watch worn by one of the victims had stopped at that hour. The tragedy was not discovered, however, until 7 a. m.

Mrs. Ina Whitlatch Is Taken Away To Serve Her Sentence

Will Be Confined In Muncy Industrial Home From Five To Ten Years

Sheriff and Mrs. Reynolds left this morning with Ina Whitlatch convicted of manslaughter for death of her husband, William Whitlatch, for the Muncy Industrial Home located near Williamsport, Pa.

Mrs. Whitlatch was sentenced to undergo imprisonment for a period of not less than five nor more than ten years. Previous to sentence her attorney had withdrawn an application for a new trial which was made following her conviction.

Mrs. Whitlatch shot her husband at their home on County Line street following an altercation. The Muncy Industrial Home is an institution for women.

Deposed Chicago Superintendent Of Schools Asks For $250,000 In Libel Action

(International News Service)

CHICAGO, April 12.—Suit for $250,000 libel against Mayor William Hale Thompson was filed in the Superior court here today in behalf of former Superintendent of Schools William McAndrew.

McAndrew charges that Mayor Thompson, in his war against England, "maliciously attempted to destroy McAndrew's reputation for patriotism and as an educator."

Y. Campaigners Far Over Goal Of Memberships

Teams Report Total Of 1,231 For Work In Two-Day Drive

GOAL OF 500 IS PASSED BY 731

Boys' Teams Take Laurels In Campaign; Appreciation Expressed

With 1231 memberships reported—the largest in recent years—12 teams consisting of 150 men and boys closed a two-day whirlwind drive for new and renewal of memberships for the Y. M. C. A. Wednesday evening when they met for dinner in the banquet room of the Y. Last year, in what was thought to be the best campaign ever staged by the Y, 1146 memberships were gathered.

As the winning teams gathered about the tables, one knew instinctively that victory was certain, and by what total only could be guessed at. But no one present thought that the goal of 500 would be oversubscribed by 731 memberships.

Avalanche Hits Meeting.

And during the first part of the report, no one was certain that the goal would be oversubscribed. It was when the boys' division with John C. Leonard, boys' secretary of the Y. M. C. A., started to report that the total of memberships began to resemble a gigantic snowball. Only one team fell below the 100 mark, one surpassed 200 and another almost reached the goal of 200 members. As the best solicitors of the boys' teams in that they had gathered more than 50 memberships apiece, Bill Marlin, Nick Uram, Frank Huffner, John George and Bob Golder were awarded special honors by the assemblage.

Acting in place of Robert J. Tully, general chairman of the drive committees, H. A. Wilkison was chairman of the meeting. He called upon R. L. Meermans, general secretary of the Y. M. C. A., to express the gratitude which the directors of the association felt towards the men and boys who had given so much of their time so that the campaign, lasting but two days, could be the success that it is.

Meermans Speaks.

"I am sure that my few words will be inadequate to express the appreciation that the directors, the secretary and his assistants feel to you for

Medical Society Pays Tribute To Two Of Members

Half Century Of Service Of Two Local Physicians Is Honored

ANNUAL BANQUET AT THE CASTLETON

Drs. R. A. Wallace And D. R. Harris Are Honored By Associates

Two men who saw the dawn of modern medicine and watched it develop, step by step, into the amazing science that it now is: two men who for 50 years have been the guides, philosophers and friends to thousands of residents of New Castle and Lawrence county, were signally honored at a testimonial dinner, given in their honor by the Lawrence County Medical society which took place Wednesday evening in the crystal ballroom of The Castleton.

Dr. R. A. Wallace and Dr. D. R. Harris have served the community for 50 years. When the city contained but 6,000 inhabitants they began to practice. Since that time they have remained in New Castle, and have been leaders in every movement to advance the science of medicine within the county.

Dr. Zerner Speaks.

As the first speaker on the program Dr. W. F. Guy introduced Dr. H. E. Zerner, who spoke on Fifty Years of Service. But before he began to talk, Dr. Zerner called on the 60 assembled medical men to rise and sing "Auld Lange Syne" as a special tribute to the guests of honor.

"As I look on my two colleagues at the farther end of the table, may I say that my one wish is that I may live to continue in my practice for 50 years, and may they continue their practice for 50 more years.

"In 50 years much happens, and especially in the science of medicine. Whether civilization progresses or lags, medicine always leads. Never yet has there been a movement that did not advance the medical profession. Sanitation, inoculation, vaccination and tracing the circulation of the blood: these two men have seen all of these movements when they were in their infancy. And through it all they have kept abreast of the times.

Examples of Profession.

"Dr. Wallace and Dr. Harris are exemplars of the profession in New Castle. All of the county looks up to them. They have always set the highest standards of ethics for the young men in the profession and the community. Words are futile so we have decided to present this memo to each of them. May it carry with it some of the sentiment which we feel."

Each of the doctors was then pre-

Three Found Dead In Wrecked Plane By Texas Cowboys

Cowboys Riding Range Find Plane And Three Persons, Believed Dead Many Weeks

(International News Service)

TOYAH, Tex., April 12.—Authorities today were investigating the gruesome discovery of two cowboys as they rode the range south of here late yesterday.

It consisted of a wrecked airplane containing the bodies of three men. From papers in their pockets the men were identified as:

Frank L. Drew of Forth Worth; D. M. Lawson, deputy U. S. marshal of Monti, Utah, and Ed G. Knapp of Ypsilanti, Mich.

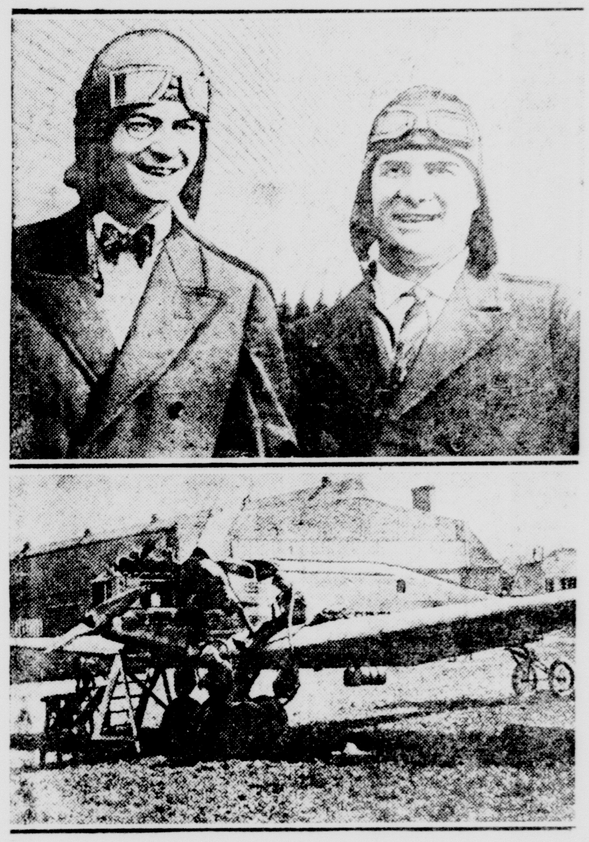

Drew, a veteran aviator of the world war, left Fort Worth a month ago, it was learned, to obtain a new plane at San Diego. The men were returning to Fort Worth, it is believed, when the plane crashed, probably during a severe sandstorm.

Payne Leading Pyle's Runners

Oklahoma Youth Is Leading Marathoners Through Home State

DILKS CONTINUES TO MAKE HIS LAPS

By LELAND C. LEWIS
I. N. S. Special Correspondent.

BRIDGEPORT, Okla., April 12.—C. C. "Cross County" Pyle's bunion derbyists pushed out of here for their 40th control at Elreno, 35 miles eastward, today, with Andrew Payne, Oklahoma youth, heading the van with an elapsed time of 240 hours, 23 minutes, 7 seconds, for the 1,421 miles covered since leaving Los Angeles on March 4.

Payne, the object of acclaim at every hamlet and crossroad traversed by the Pyle caravan, retains with it all the modesty of a real sportsman. After he had run a dead heat from Clinton to Bridgeport with Peter Gavuzzi, Southampton, England, he sought the company of "the gang", his rivals, rather than accepting proffered hospitality of this town.

That Gavuzzi intends to keep a tenacious hold on second place is evidenced in the fact that in the past three days, the same time, 1 hour 24 minutes 43 seconds, has remained the time difference between himself and Payne. The closeness of the race is increasing with each passing day. Shifts take place from control to control among the 12 leading runners and walkers.

Earl Dilks of New Castle, Pa., lagged behind yesterday. His elapsed time to Clinton was 341:38:16.

Rabbi Menkes To Give Lecture On "The Dybbuk" Friday

"The Dubbuk" is a dramatic masterpiece based on Jewish folklore and mysticism. It has been produced on all the leading stages in Europe and America and was received everywhere with unqualified acclaim. The well known dramatic critic of the New York World Alexander Woolcut was so deeply impressed with it that he said: "No production in the endless, shuffling parade of plays that have passed the reviewing stand since the season began can compare with the Dybbuk."

Everybody will be glad to hear the interpretation of this play as will be given by Rabbi Menkes at Temple Israel tomorrow, Friday night at 8:00 o'clock. The meeting is open to all.

Junkers Plane Heads Westward Across Atlantic

Weather Conditions Make Start Of Atlantic Flight Possible Today

THREE FLIERS ON PLANE IN TRIP

Expect To Reach Shores Of America Some Time Early Friday

(BULLETIN)
(International News Service)

LONDON, April 12.—The transatlantic monoplane Bremen passed over Galway on the west coast of Ireland at 7:05 a. m. (English time) today, according to a Central News dispatch from Galway.

The plane was flying strongly in a northwesterly direction. It was seen later over Costelloe, 29 miles west of Galway, heading westward towards the Atlantic.

DUBLIN, April 12.—Determined to be the first to span the Atlantic Ocean in a westward flight, Captain Hermann Koehl, commandant James E. Fitzmaurice and Baron Ehrenfried von Huenefeld hopped off from the Baldonnel air field for America in the Junkers monoplane Bremen at 5:38 a. m. today.

Undaunted by the recent tragic disappearance of the British fliers, Captain Hinchcliffe and Miss Mackay, the two German airmen and their Irish companion departed upon receiving the first favorable weather reports in several weeks.

Capt. Koehl handled the "joy-stick" of the plane at the take-off. Commandant Fitzmaurice, chief of the Irish Free State air force, who was to act as relief pilot, sat next to him in the cockpit. Von Huenfeld, who went along as observer, sat behind them between gas tanks.

Plane Heads Westward

While a crowd of several hundred soldiers on the field cheered, the heavily loaded plane lifted gracefully from the field after a run of about a half mile and headed westward. It gained altitude steadily and after a few minutes disappeared from view.

All three fliers were confident that they would succeed in their venture. They smiled and waved from the plane as they started.

President Cosgrave of the Irish Free State shook hands with them before they entered the plane and wished them godspeed.

After weeks of reports of miserable weather over the Atlantic the fliers were greatly elated last night when they learned that conditions as far west as the mid-Atlantic were perfect for a transatlantic flight. At nine o'clock it was announced that the hop-off would be made at dawn today.

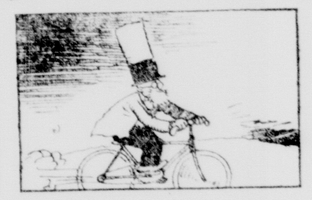

In Perfect Condition

The plane was wheeled from its hangar at about 3:30 a. m. this morning and given a final inspection. It was found to be in perfect condition. A cordon of soldiers was strung about it to ward off the curious.

At dawn Koehl and his companions

This is the day for the flying lads who skim through the airy sea, this is the day for the fellows with wings who have birds on their family tree. This is the day when Chamberlin, the flyer is due to come in, to tell us just what it was all about, when he hopped in his plane to Berlin. The folks are out and the boys and girls, for a glimpse of the man who would dare, to cross the Atlantic through storm and fog, with his vessel that rides the air. We're glad he's here, and we wish him well, this flier who crossed the sea, its the fliers' day and we wish them luck, the weather is forty-three.

Anti-Lynching Law Proposed

Representative Berger Of Wisconsin Proposes Federal Anti-Lynching Law

SEVERE PENALTY FOR LYNCHINGS

(International News Service)

WASHINGTON, April 12.—A federal anti-lynching law which would not only send members of mobs to prison but also police officials who deliberately fail to prevent lynchings was proposed in a bill introduced in the House to day by Representative Victor Berger (S) of Wisconsin.

Berger's bill would make the penalty for taking part in the formation of a lynching mob five years in prison with a $5,000 fine, with twice the penalty for delinquent officials.

"Four years have elapsed since the Republican party pledged itself to the enactment of a federal anti-lynching law," said Berger.

"During those four years 79 were killed by lawless mobs, while the Republican party, with a majority in both Houses sufficient to carry policies that were beneficial to special interest groups, failed to promise to outlaw lynchings."

"While thousands of people are being paid to spy on those of their fellow citizens who may be taking an occasional drink, and millions of dollars are being spent annually to deal with this petty lawlessness, not an effort is being made to punish acts which bring injury and death to people, many of whom are innocent."

Twenty-Seven Are Dead In Milan In Assassination Plot

(International News Service)

MILAN, Italy, April 12.—Twenty-seven persons were killed and wounded here today when assassins who plotted to kill King Victor Emanuel exploded a bomb in the crowded Julius Caesar Square.

A change in the king's plans probably saved his life.

The monarch, who came from Rome to open the Milan trade fair, arrived at the railway station just half an hour before the bomb was exploded. The fact that he went directly to the exhibition instead of stopping at the station for the planned reception is believed to have saved his life.

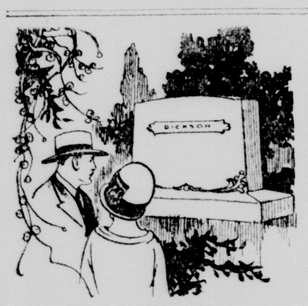

Mother Of Flier In Atlantic Hop Reported As Ill

(International News Service)

BERLIN, April 12.—Baroness Von Huenefeld, mother of the backer of the trans-Atlantic flight attempt of the Junkers monoplane Bremen, is ill, it was learned today.

News that her son was going along with Captain Koehl as the official observer, was kept from her.

She will not be informed of his departure until the Bremen either lands in America or is given up for lost.

acclaim that has been accorded Lindbergh, yet he flew as far, under adverse conditions, and since that time almost smashed the world's endurance record. New Castle must show its hospitality to one of the leaders of the most modern science.

Even North Jefferson street, which seems to be about the widest in the city, also seems narrow when there is any amount of traffic. Last evening a large truck tried to turn from Washington street north onto Jefferson street. But when it got half way around the corner, it could not go farther because of the parked cars. In a short time trucks will have to be made smaller, or sidewalks will have to be eliminated. One can't move buildings, you know.

Wonder what will happen to the curb flag decorating system in the widening of Mercer street. The holes for the flag poles are being eliminated and so far as Pa Newc has noted, have not been replaced where the street widening has been completed.

According to a report made to Pa Newc an itinerant salesman of glasses who was in the vicinity of Huron avenue, was using high pressure methods to sell them. He is alleged to have informed one woman that she was "going blind" in order to sell glasses.

Five Under Arrest Following Raids On Monongahela Clubs

(International News Service)

PITTSBURGH, April 12.—Five men were under arrest today and large quantities of assorted loquors said by prohibition agents to have been seized in raids on four Monongahela clubs, had been destroyed by officials.

The largest seizure was said to have ben made at the Eagles club where five barrels of beer, 200 gallons of beer mash were found according to officials.

At the Owls club six cases of home brew, 24 pints to the case, were taken agents said while raids on the Italian Citizens club and another resort were said to have yielded beer and other liquors.

Broken Propellor On Kegarise Plane

While tuning up the propeller of his plane about noon, for the trip to greet Chamberlin, R. R. Kegarise, had his arm somewhat injured, when it was struck by the propeller blade. Five stitches were taken in the arm. Kegarise said he would go on the flight however.

In the accident, the propellor of his machine was broken. He sent to Pittsburgh for a new one, immediately, and expected that it would be delivered by plane so that his machine would be in commission again this afternoon.

LINER HOMERIC IS 24 HOURS LATE

(International News Service)

NEW YORK, April 12.—Battered by seas of hurricane force, the liner Homeric arrived today 24 hours late.

Tempestuous seas, encountered by the vessel in the entire voyage, reached their height Saturday night, and battered three heavy glass panes on the promenade deck.

The waves were forty feet high, from trough to crest, and broke over the whole vessel, Capt. W. S. Parker said.

The Homeric's speed was reduced to seven knots during the worst stage of the storm.

airport to assist the aviators in landing.

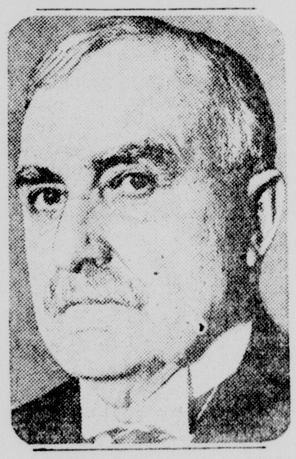

It is expected that eight members of the Pittsburgh Aero club will also fly to New Castle this afternoon and a miniature air circus will be held over the city. These plans are but tentative as it is possible that at the last minute the Pittsburgh men will decide to postpone their flight to New Castle until later in the month.

Shortly before Chamberlin arrived in the city the whistles of the Shenango Pottery, the New Castle Box company and the steel and tin mills were blown to announce his coming to the citizens.

Neither Ed. Schultz, flying the Crowl plane, nor Ralph Kegarise, in his plane, was able to get away to act as escort for Chamberlin as planned. Kegarise broke the propellor of his plane in an accident at the field this morning. Shultz got away from the Harlansburg road field and circled over the area for a short distance, but was forced to make a quick landing because of some trouble. The plane landed in a muddy part of the field and was not seriously damaged.

Some hundreds of people flocked to the Harlansburg road airport early this afternoon to be present when the famous flier, Clarence Chamberlin, landed.

Couple Plan For New York-Detroit Flight By Plane

From Times Square To Woodward Avenue Is Object Of Flight Today

(International News Service)

NEW YORK, April 12.—Miss Ruth Nichols, society girl and licensed seaplane pilot, who recently completed a non-stop flight from New York to Miami, Florida, will accompany Richard Depew, Jr., vice-president of an airplane manufacturing company, when he starts his "non-stop" trip from Times Square to Woodward avenue, Detroit, today.

Miss Nichols and Depew will eat breakfast in the cabin of the plane while it is standing in Times Square, and then, without leaving the cabin, will be towed to Curtiss Field, where they will take off on a flight to Detroit.

They plan to land at the flying field near Detroit and be towed, still without leaving the cabin, to Woodward avenue, where they will eat dinner in the cabin.

The plane's wings will be folded while it is being towed.

Your Hands Speak

By Edna Wallace Hopper

While you perform hundreds of commonplace tasks everyone present watches your hands.

You pour tea. You open your purse. You shake hands with an acquaintance. You put on your gloves. All day long people watch your hands.

Do your hands speak for you? Do they suggest daintiness? They can be firm, capable and at the same time exquisitely kept with practically no effort. Youth Lotion is rubbed into the skin, leaving your hands smooth and dry, so that you can wear gloves immediately after applying.

Edna Wallace Hopper as she looks today

Just keep a bottle on your dressing table and one where you work (in your kitchen, your office or shop). Use it every time you wash your hands.

The pleasurable sense of feeling your skin so satiny—of seeing it so soft and white—is worth a good deal more than the slight effort. The cost is trivial. You can get a large bottle of my Youth Hand Lotion at any toilet counter, 60 cents.

CHAMBERLIN'S VISIT—AVIATION DAY

NEW CASTLE is today observing its first Aviation Day. It was thus designated by Mayor W. H. Gillespie in his recent proclamation, and as such is the outcome of the efforts of the airport committee of the New Castle Chamber of Commerce.

A two-fold aim is being attempted.

In the first place New Castle citizens are taking the opportunity to pay a just tribute to one of the great heroes of the air—Clarence Chamberlin—who piloted a plane across the Atlantic from New York to Germany, last summer; and in the second place the city is taking advantage of the visit and knowledge of this noted flier to give an impetus to airport and flying development in New Castle and vicinity.

Initial steps have been taken by local individuals towards developing aviation here, and in making this city a factor in the fast spreading interest in flying throughout the nation. Two planes are in use here and initial work has been started on two airports.

It is anticipated that the visit of Chamberlin and what he has to say at the gatherings here this afternoon and evening will prove a stimulous towards bringing the airport projects to adequate development, and bringing this city to the fore in the line of aviation.

Most cities of the country are realizing that aviation is going to play an important place in the future progress. New Castle is one that is awakening with the rest.

We are glad to greet Mr. Chamberlin today, to hear what he has to say, to pay our measure of tribute to his pioneering and heroism in his trans-Atlantic flights, and to recognize in him one of the men of the day who is doing a large share in pushing American aviation to the forefront in the march of progress throughout the world.

THE TWO-CONTINENTS HIGHWAY

THAT proposed international highway planned to run from some point in Canada, across the United States, across Mexico, down through Central America and as many of the South American countries as possible, becomes more attractive the more one reads about it.

It will stimulate both friendship and trade. More tourists than marines will travel up and down that highway. It will be a road of varied scenes, romantic in its variety, for it will not only touch thriving cities and fascinating villages, but it will also penetrate jungles, wind through mountain ranges, traverse regions inhabited only by wild life. It has been suggested that the road will serve as a guide to aviators and a suitable and safe landing place for them in emergencies.

Although it will be years before such a road can be completed, its commencement is likely to come fairly soon, because it is winning such widespread interest. It received general approval at the Pan-American conference in Havana and is to be taken up for more definite action at the conference in Rio de Janeiro next year. A resolution dealing with this project has been favorably reported to our own House of Representatives by the foreign affairs committee.

Two of the most depressing sights are a car after it happens and the supper dishes next morning.

The third prize for faint praise goes to the man who said the metropolis is more tolerant than the town.

A young business man always feels very efficient if he can use six blank forms to handle a 40 cent order.

An old-timer is one who can remember when that kind of stories were told in smoking cars instead of magazines.

Inferiority complex: Being awed by a man who knows things you don't know and doesn't know things you do know.

The Way OF THE World

By GROVE PATTERSON

THEY'RE THERE TO STAY

Women are not working in factories to kill time until they can catch a man—not today. They are in industry to stay. They are there to better their economic condition. They are there in order that they may win freedom and independence for themselves. And factories, today, are not what they used to be. They are more comfortable, and there is an atmosphere of cheerfulness about them that was unknown 25 years ago. Women working in factories know what they are about.

NOT WORTH DOING

It is curious to observe that some of the things men do the hardest, the things that they do with the most vigor, are some of the things that are least worth doing. In Carolina a man played the piano 99 hours and 45 minutes. He would have gone right on playing if he had not been stopped at midnight by a blue law that forbids that kind of entertainment on Sunday. Here is an example of great perseverance and industry put to no use. If there is any habit that is almost as bad as laziness it is the habit of great activity to no purpose.

PAINTING HER WAY

Hilda May Gordon, a young woman whose home is on the Isle of Wight, is in this country. She has been painting her way around the world. There are men and women who have worked their way around the world in various fashions. Many have written their way. Few have painted their way. It has taken Miss Gordon six years to do it, but she has painted some good pictures and they have sold for real money. If there is anything that can beat man's ingenuity it's woman's ingenuity.

SALESMANSHIP

"The hornbills, ladies and gentlemen, are quaint birds that inhabit the jungles of Malay. They are five feet long. When the female lays an egg she goes into a hollow tree. The male bird collects mud and plasters her up. She stays in there for two and a half months and the male bird feeds her on strychnine all that time." This is an illustration from a lecture by the noted traveler, Carveth Wells.

Mr. Wells is not really a naturalist by profession, but he is a tremendous salesman for the facts which the naturalist knows to be true. What you know is highly important, but the capacity for selling curious facts to a curious world is also highly important, if you are going to make a place for yourself.

Hints and Dints

Sun sets tonight 6:36. Sun rises tomorrow 5:26.

Smile.

We sure have had some fine winter weather this spring.

Opportunity doesn't come with a guarantee.

It is said that there are many people in large cities who do not know what a pig looks like and in some places little pigs are sold as pets. No doubt when those pets grow into hogs the owners get quite a shock.

EDITOR'S WEDDING FOUNDED ON TYPOGRAPHICAL ERROR

The 25th anniversary of a wedding founded on a typographical error was celebrated recently by Mr. and Mrs. Gunnar Bjornson of St. Paul, Minn.

Mr. Bjornson, distinguished editor, legislator, public speaker and now a member of the state tax commission, was editor of the Minnesota Mascot 25 years ago when Mrs. Bjornson, then Miss Ingibjorg Augustine Hurdal of Winnepeg came to Minnesota. In reporting the arrival of the girl, the newspaper referred to her as "Mrs." Asked to make a correction, Mr. Bjornson called on Miss Hurdal and after a short period of courting, married her.

Every time there is a holiday we read of some fine things that happen in jails. We noticed an item a few days ago where prisoners in jail were given colored Easter eggs and the ladies who were in were given flowers. A lot of us who were not in jail did not fare so well. We have nothing against it, but it does seem that being in jail has its compensations also. Even a contagious disease sign will keep collectors away.

Specialists who think modern life hard on the nerves should have heard the old-fashioned kid doing his lessons on a slate.

The girl with a pretty dimple takes advantage of the opportunity to broadcast happiness whenever it occurs. In other words, she knows her onions.

We notice that many governors are not interfering with the executions of murderers who are making pleas for more time. Murderers never give their victims any time, not even to pray.

"Be yourself" was a popular slang expression even before Lindbergh tried it out on the nation.

Two men in Cleveland are in jail because they made false statements about their income tax so their divorced wives would not know how much money they made. They will have two years to think this over in the federal prison in Atlanta. Don't try to flim Uncle Samuel.

The girl who is trying to get up nerve enough to tackle a diet has the satisfaction of knowing that there is a fatter girl in the sideshow.

"And at her request you gave up drinking?"

"Yes."

"And you stopped smoking for the same reason?"

"I did."

"And it was for her that you gave up dancing, card parties and billiards?"

"Absolutely."

"Then why didn't you marry her?"

"Well, after all this reforming I realized I could do better."

A New York actress when told the report was out that she and her husband had separated, replied that she had not only fired him and her other manager a year ago, but has come to the conclusion that a husband is a detriment to an actress. It does look as if they were sort of a handicap, but the actresses are always trying to get one who will stick.

An effort is to be made in Chicago to determine the worth of an airplane as an agency of pursuit in the case of bank robbers. When the bank robbers hear this they will try to give the airplane one better. It seems to us a flying machine would be the right thing to use when crooks are fleeing.

In the fight that has been on between temptation and man's conscience for so many decades, last reports show temptation to be just a wee bit in the lead.

In some cities the end of Lent was the occasion for a rush to the marriage license offices. This is the first time we ever heard of anything slowing up marriages, unless it was a panic, and then some rush into a panic when they get married at that.

A new high bond record has been established in Mercer for a bootlegger. He had to give a $10,000 bond to get out of the coop. They sort of wanted to hold that baby where they could get him when they wanted him. He must be a bad 'un.

WHEN YOU'RE WRONG, DON'T POUT; JUST APOLOGIZE

Some years ago a chronic loafer who spent his spare time at a local business office, made himself a nuisance by asking questions.

One day he sat with his feet on the manager's desk and asked that worthy: "What salary do you get?"

"I get 20 thousand a year," said the manager. "Ten thousand for attending to my own business and ten thousand for letting other people's business alone."

The loafer was offended and hasn't been on the premises since.

There was a woman who lived near town a few years ago and raised chickens. Her chickens tormented a neighbor and devoured his garden. He contented himself with profanity and the throwing of clods for a year or two, but at length grew weary of long-suffering and bought a shot-gun.

Then he called on the woman and told her what to expect. His garden, he said, was an essential part of his living. He could not afford to contribute it to the support of stray hens. If the hens again invaded his premises he purposed hastening their departure to that land where the worm dieth not.

The woman was offended. She said she had no place to keep her chickens, and she had to let them run out, anyway, because they needed green feed and she had none.

People are queer creatures, aren't they? They impose on you world without end, violating every rule of courtesy and fair play, and when at last, having endured all you can, you endeavor in the most gentle way possible to protect yourself against their thoughtless or intentional invasion of your rights, they think a great wrong has been done them.

Perhaps it's all in the breeding. The right kind of man, receiving a hint that he has been discourteous or unfair, is filled with contrition and makes apology.

We will have with us this week in fact tomorrow, Friday, the 13th. There is nothing to be afraid of about that. The most successful venture we ever started was on Friday, the 13th and we did it against the advice of a lot of superstitious people. One should be just as careful on Friday, the 13th, as one is on any other day of the week or year.

Could Coolidge Say No?
To Discourage Vice.
P. R. R. Flying Plans.
Reds, and a Mosquito.

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

Mr. Darrow, of the House Naval Affairs Committee, told President Coolidge his friends "still hoped he would be a candidate." The President replied: "I am afraid they will have to be disappointed."

Die-hard Coolidge enthusiasts will find SOME comfort in that word "afraid." A man cannot help being persuaded if arguments are good.

Suppose the President were convinced, as he may be, that his renomination and re-election, a second time, would boom business, increase employment, stabilize prosperity, and free his party from oil stain danger, could he continue to say no?

A wise old poker player, as he raised, would say: "To discourage vice make it expensive." Financial powers borrowed the idea yesterday, raising the price of "call money," which means gambling money, to 6 per cent, first time in more than a year.

That annoyed ardent bulls. Things had come to a pretty pass, they thought, if gentlemen engaged in street speculation, they must pay for money almost as much as a farmer borrowing to build a new barn.

Oil production in California because of the "shut-in" plan", drops 18,250 barrels a day, enough to lower the whole national output. Oil stocks will be cheered by this news.

General Atterbury will sell $17,500,000 Pennsylvania railroad stock to employes, a good way to interest them in their company.

Aviation is a reality, says General Atterbury, and railroads should know it. He is said to plan for the Pennsylvania a part-railroad, part-flying machine service from the Atlantic to the Pacific.

The traveler would spend daylight in the flying machine, night hours on the train, cross the continent in 48 hours, avoiding mountain flying. This rumor is not guaranteed.

"Red" theories imported from Russia do not agree with government by relations of the sun and moon.

A Frenchman cultivates a mosquito that doesn't bite men and does drive out the biting mosquitoes. This new mosquito that bites other animals, even hens, not humans, might solve the mosquito disease-carrying problem.

Those Japanese "reds", providing an element that wouldn't bite the white races in any Asiatic-European war, might be very useful.

Henry Ford interests the British more than any American has done in 50 years with two exceptions—Thomas A. Edison and Buffalo Bill. Ford says Britons should use more machinery and save labor. British unions will object to that, not having learned that only machinery fully used makes high wages possible.

When Ford saw a gigantic 50-acre dump that has been burning for centuries, he wanted to harness that and change lost heat into power.

However, the British government is not backward. It plans to harness the tide at the Severn mouth, expecting to get enough electric energy to run England's six biggest cities.

Twenty-two United States warships are in Hawaiian waters. Eighty-nine more will go west through the Golden Gate on April 18.

If real war should start those 111 warships would hurry to the nearest harbor, to be cleverly camouflaged and hidden from air and submarine attack. Then the country would wish it had spent on submarines and airships half the money thrown away on battleships.

LINES TO THE BOOK AGENT

Keep closed that little case, and say no word
About it contents. I am weak today
And I should want to see, if once I heard
Your praise of the treasures you display.
And seeing, I should ramble through the text
And purchasing the book would follow next.

I can resist the smile on folly's face,
And cling to duty on a lovely day.
I can look down on jewels in a case
And wish for them, and bravely walk away.
Topers have told me that the taste for drink
At times grows stronger than man's power to think.

That form of craving happily I've missed,
My passion runs much deeper than it looks,
I have no power within me to resist
The dreadful habit of acquiring books.
That is my vice, and oh, the woe it brings!
It's horrible to want such lovely things.

No, no! I will not look. Nor will I hear!
I've promised her that I would buy no more.
Promised her that—the pledge to run the year—
You've found the Browning I've been looking for?
Well, let me see it. Yes, of course, I'll buy.
Poor, spineless, craven weakling that am I.

SAME WORD.

Cardinal Richileau was a great man. He was a successful man. He had his own way. Kings or no Kings. Kings meant little to him. Swords and pistols were of no avail when his eyes flashed fire. All departed when he said: "Move," and all remained when he ordered: "Stay." Some remarks about the presence or absence of the word "Fail" in the "Golden Lexicon of Youth" are ascribed to the Cardinal. He might have referred in the same language to the word, "Can't". It has remained for a man from Missouri to enlighten "youth" concerning that word. It happens in this wise:

"Aw, I can't!" whines the young nephew.

"You can't" answered old Riley Rezzidew, sarcastically. "You ain't been hypnotized, have ye or broken a leg or the dyspepsy or a wife and mother-in-law to henpeck the energy out o' you; you are not in the poor house or in jail, or bound hand and foot with chains, are ye? In this present Anno Domerni and this Great Land of the Free any whole and healthy man or boy who makes use of the word "can't," when referring to any task or duty of everyday life ought to be arrested for misappropriating other people's property, stealing a word that is the rightful possession of cripples, paupers, prisoners and Model Husbands."—

In the Lexicon of Successful America there is no such word as "can't".

Bible Thought For Today

A GLADSOME SERVICE:— Make a joyful noise unto the Lord, all ye lands. Serve the Lord with gladness: come before His presence with singing. Psalm 100:1, 2.

PRAYER: O Lord, Thy commandments are never grievous unto us, when our hearts are glad with Thy presence.

Dr. Crane's Editorial

FIFTY FIFTY

It is now proposed that England and America co-operate in connection with a line of dirigibles to cross the Atlantic in forty-eight hours.

An American company is forming to build ships in this country to operate under the American flag, and similar work is going forward in England.

Why wouldn't it be well for other forms of industry to do likewise?

Is it not time to substitute international co-operation for international competition?

Competition is a back number, anyhow. When the United States Steel Corporation was formed it was declared that most of its stock was water. That stock is now worth way above par.

Co-operation has immensely outdistanced competition.

New chain stores are constantly forming, for it is found that a chain store system can buy goods for much less than an individual store.

We are getting away from distrust and discovering that the main advantage in a combination is a saving of waste. War is always expensive and often quite as expensive to the victor as to the vanquished.

The same thing is true of nations.

Perhaps all wars are directly caused by trade competition. At least some people are fond of asserting that this is the case.

Why is it not a good time for nations to lay aside their belligerent attitude in regard to matters of commerce and co-operate one with another for the mutual benefit of both?

Reciprocal or favored nation treaties have already been formed between various countries, but they do not go far enough. There is an immense population in France of hard-working, industrious people. There is also an immense population of similar folk in the United States. These two countries ought to be able to get together and for the mutual profit of both peoples join in their commercial enterprises.

Is not a good way to prevent war in the shape of armed conflict some method of preventing war in industry? We have long ago got over the idea in business that the prosperity of one concern is to be measured by the wrecking or failure of other concerns.

The Ford Motor Company does not have any especial grudge against the General Motors Company, but it is considered that the success of one heightens the probability of the success of the other.

Why could not the same thing hold true with nations? Instead of regarding with envy and distrust the prosperity of another people why could we not rejoice in it as being an argument for the success of our nation?

Already the United States has many dollars invested in foreign enterprises and surely the safety of our investors rests upon the soundness of those investments. We have an interest in promoting the welfare of the whole world. Whatever will go toward bringing nations closer together commercially will be a new step in advance and toward the promotion of peace and the absence of war.

C. B. D. CHARLES B. DRISCOLL

A LETTER

C. C. Hirons, of East San Diego, California, writes me a very interesting letter. While I can't reproduce it here, since it covers eleven pages of closely-written correspondence paper, I must extract some of the meat of it for my readers. It's the kind of letter one likes to read.

Mr. Hirons was once a resident of Sumner county, Kansas, and later was superintendent of the Gold Standard mine, in the Pike's Peak region of Colorado. He relates most interestingly an incident that I will have to give you in much condensed form.

There was a large steel ventilation shaft running through a tunnel in which men were working, and there were steel rails along the floor of the tunnel. While Hirons and a friend were standing in the tunnel and while workers were busy at the head of the same tunnel, two balls of fire, evidently ball lightning that had descended through an opening that led to the surface of the ground, ran along the top of the ventilating pipe, past the watchers, up to the tunnel head where the men were working, and then dropped to the steel rails and started a return trip.

When just about opposite the two watchers, the balls of fire, about the size of oranges, left the track and appeared to dive straight into the opposite wall.

* * * *

Mr. Hirons had then, and still has, the idea that there is affinity between electricity and gold. He took the sudden jump of the electric spheres as an indication that there was a big vein of gold in the wall at that point. He had the spot excavated for sixty feet inward, and found only a very thin vein of gold.

This correspondent also says he has seen many trees in the Colorado forests that have been struck more than once each by lightning. Of course there is no truth in the saying that lightning never strikes twice in one place, any more than there is truth in the saying that a tornado never crosses a river. I remember a house that I used to pass fearfully when a boy. Two children had been killed in their beds in the front room upstairs by lightning which struck exactly where another had struck a few years previously. And I have seen three tornadoes cross rivers.

I'll have to quote more from this interesting letter another day.

Keynoter Has Power On Convention Floor

By CHARLES P. STEWART
Washington Correspondent for Central Press and New Castle News

WASHINGTON, April 12.—Chairman Butler of the Republican national committee chose a reliable "keynoter" for the Kansas City convention, but not a particularly brilliant one.

SEN. FESS

A presidential convention "keynoter," as all doubtless are aware, is the affairs temporary parliamentary boss. He runs things while the gatherings organizing — electing a permanent presiding officer and other functionaries—generally getting ready to begin.

To avoid confusion, he has to be selected in advance. For that matter, all the rest of it usually is cut and dried, too, but the "keynoter" part of the program always is.

* * *

Further than that a certain amount of empty honor's supposed to attach to it, the "keynoter's" stunt isn't of much importance except in one respect—

The temporary chairman makes the initial convention speech—the party keynote—hence "keynoter"—of the campaign.

It fits in just at the well-known psychological moment. The ideal keynote speech should harmonize all factions, pep everybody up, get the proceedings off to a lovely start, and contain a rip-snorting appeal to the voters incidentally.

* * *

There's another thing a powerful "keynoter" sometimes can do.

If he's enough of a hypnotist, he may succeed in impressing his ideas on a convention to such an extent that the delegates will go ahead and do pretty much whatever he urges them to do, in that keynote speech of his.

Getting in his spiel ahead of everybody else, as he does, gives him considerable advantage, provided he's a "keynoter" of sufficient ginger, eloquence and personality to make the most of it.

* * *

Senator Simeon D. Fess, of Ohio, isn't popularly considered likely to rise to such heights, as Kansas City "keynoter."

It's agreed that he'll make a nice, scholarly speech. An ex-college president, full credit's given to him for knowing how to express himself grammatically.

But set the Kaw river afire? If he does, he'll astonish the politicians.

* * *

Chairman Butler's a "draft Coolidge" die-hard. So's Simeon.

Does that account for the former's choice of the latter as "keynoter"?

Many think so. However, they don't think Sim can put it across. That is, if Coolidge is renominated, they'll believe it would have happened anyway—not that Fess' "keynoting" had anything to do with it.

* * *

Simeon, by the way, has been a wee bit of a presidential "possibility" himself—a pretty pale one.

Still, he has been mentioned. He was occasionally referred to before the late Senator Willis' boom developed, and eclipsed him completely. Since Willis' death he has even been spoken of as "our next president," though in tones of mighty little conviction.

Just because Fess isn't very highly regarded as a prospective "keynoter," it shouldn't be assumed that he isn't well thought of as a politician.

On the contrary, he is greatly respected for his keen discernment of the side his own and others' political bread is buttered on.

This isn't the same thing as being a great ballyhoo artist.

Mother Tells How Konjola Relieved Her Two Children

MARGARET & WALTER MAJORS
Seavy Photo

New Medicine Gave Them New Life And Energy; Built Up Entire System

This new Konjola medicine has received the most startling voluntary testimonials ever written in New Castle. Report after report is coming from men and women already benefited, while at the same time, the Konjola Man, at the Love and Megown drug store, 204 East Washington St., New Castle, is personally explaining this new compound to large crowds daily.

Among the great list of New Castle people who are indorsing this Konjola is Mrs. Clara Majors, 1202 School St., this city.

"I am so thankful for the relief Konjola gave to my two children that I will not only make a public statement about it, but I will also tell my friends and neighbors about this splendid preparation of yours", said Mrs. Major.

"The health of my son, Walter, who is five years old, had always been a constant worry to me. He was very weak and frail and did not seem at all like other children. He had no appetite and we would actually have to force him to eat his meals. His body was broken out with boils and a terrible rash. We tried all kinds of medicine but nothing ever helped him in the least. All day long he would have crying spells and we never could find out what caused them. Finally I decided to give him Konjola after hearing about this wonderful medicine and the relief others had obtained from it. The first few bottles seemed to put new life in him. I noticed the change right away. Now he is like a different boy. His appetite is good and he is always eating. The rash and boils have completely disappeared and his complexion is like a baby's. He never cries like he used to and is a perfect child. Since he started taking this medicine he has steadily gained in weight and strength.

"In the case of my daughter, Margaret, who is only two years old, I had practically the same worries. She was listless and sallow. I thought that as she was growing older, those ailments would wear off, but they only kept getting worse. The food she ate, did not nourish her the way it should and she was greatly underweight. Her body was broken out with blemishes just the same as Walter's. You can imagine the worries and fears I had over the health of my two children. When Konjola helped Walter so much, I decided that it would do no harm to give it to Margaret. It is a blessing that I did, because it helped right from the start. Now she is a lively baby and is getting better every day. Her complexion is just what it should be, all the blemishes are gone and she has lots more color in her face. Her appetite is getting better all the time and the food nourishes her just as Nature intends it to. In fact, her health is so much better I hardly know what to make of it.

"Konjola has been a Godsend in our home and I shall always praise this medicine and recommend it to everyone who suffers because I know what it will do".

The Konjola Man is at the Love and Megown drug store, 204 East Washington St., New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy.

Make Plans For Debating Meeting

Inter-State Event Will Be Held At Grove City, Friday, April 13

GROVE CITY, Pa., April 12.—Final plans are being made by the Grove City College Chapter of the Pi Kappa Delta, and other organizations on the campus interested in forensics, for the entertainment of the contestants in the Inter-State Oratorical Contest, here Friday evening, April 13th. The contest is for oratorical supremacy of the Eastern Division of the National Association, and will be entered by representatives of five states, Pennsylvania, Ohio, Michigan, Kentucky, and West Virginia. The event will be held in Carnegie Auditorium at eight o'clock and the public is invited to attend as well as the student body of the college.

Raymond D. Walter, Grove City College orator and winner of the State contest, will represent Pennsylvania here Friday. He has a fine record so far this year in winning the local contest, the State event and just last week, placing among the first sixteen orators in the contest at the National Convention of the Pi Kappa Delta Fraternity, held in Tiffin, Ohio, under the auspices of Heidelberg College.

The winners of the first and second places in the contest, to be held here Friday evening, will be sent to Evanston, Illinois, where they will compete for the National title. The judges and the order of the speeches will be announced Friday following the arrival of the contestants.

SMITHS' DEFEAT CAUSES RELIEF

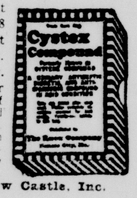

(International News Service)

WASHINGTON, April 12.—The overwhelming primary defeat of Senator-Designate Frank L. Smith (R) of Illinois, who was twice refused a seat in the Senate, has brought relief to senatorial circles.

Administration leaders, including many who supported Smith's right to a seat, were relieved by his defeat as it removed the prospect of another battle over seating him. Democratic spokesmen looked upon the Illinois vote as a vindication of their fight to bar him from the Senate.

Then by 8:30 watch how things have changed

Sometimes on rising in the morning you feel that the day is spoiled. Some clogging of the system affects your fitness, your good nature, your vim.

Then do this: Drink a glass of water, hot or cold. Add a little "Epsonade," and you will have a sparkling, pleasant drink.

That drink will flush the intestines, wash out the poisons and waste. The results come quickly. They come from the acids of lemon and grape.

Note how things change in an hour. Then remember you can bring them any hour of the day. And in a sparkling drink.

GARDNER

We are sorry to report that another worthy family, Mr. and Mrs. Frazier and children Ethel, Pearl and Wanda moved out of our village last Thursday, because there was no vacant house in Gardner. They will make their home for some time with Mrs. Frazier's parents, Mr. and Mrs. T. J. Robison, near Portersville.

Ben Orsini of West Virginia and Carl of Pittsburgh are guests at the home of their brother, Rocco Orsini and family of Gardner.

Russell King of Cleveland is enjoying a week's vacation at the home of his parents, Mr. and Mrs. John J. King of Shenango stop. Their daughter, Mrs. Millagan and Betty Jean of New Castle were also guests on Easter Sunday.

The members of the East New Castle grange will present a play in the near future, "Aaron Flick of Pumpkin Creek."

Rev. Claude Downs, pastor of Savannah M. E. church, and Rev. Mr. Childs, pastor of the Harmony Baptist church, will exchange pulpits next Sunday morning.

Mr. and Mrs. Frank M. Hay of Gardner took their children out for a drive last Sunday afternoon, going to East Brook to see the Stetson family whose little daughter Shirley is just recovering from an illness.

Mr. and Mrs. Walter Cross and children Doris and Harry of Gardner left on Saturday morning and spent Easter at the home of the parents of Mrs. Cross, Mr. and Mrs. Tresky of Wampum.

Mrs. Margaret Fiore of Savannah is ill and Mrs. Ed Lutton, who has pneumonia, is improving.

John Kirkwood of Gardner went to Woodlawn last Saturday and brought his daughter, Mrs. Wimer and son Bobby to spend Easter here, and taking them and Jack back to Woodlawn Sunday evening.

Mr. and Mrs. John Kline and son Harold of West Pittsburg were guests of Mrs. Kline's mother, Mrs. Dora Cameron, on Easter.

Ed Cameron of Savannah called on William Denny last Monday.

Rev. H. K. Hartsuff of Beaver will preach at the East New Castle mission next Sunday night.

Mrs. M. L. Reed entertained her daughters and families over the Easter holiday, Mr. and Mrs. R. E. Mayberry and daughter Mildred of Woodlawn and Mr. and Mrs. J. F. Smith and daughter Ellen of Erie, and on Sunday, Dr. J. L. Reed and Mrs. Reed and daughter Betty and son John Charles.

Mr. and Mrs. Joseph Swigert of Savannah, who spent the winter in Florida, are expected home soon.

Mrs. E. O. Alexander of Gardner was the guest of friends in Pittsburgh last Monday.

Blindfolded . . . *in scientific test of leading Cigarettes,* Mrs. Reginald C. Vanderbilt selects OLD GOLD

MRS. REGINALD C. VANDERBILT

"'I wonder if one can really tell the difference, when blindfolded,' was my first thought when invited to make this test.

"After smoking the four brands, as they were handed to me one after another, I discovered there was one that was noticeably smoother than the others and richer in taste.

"This proved to be an OLD GOLD. I hope I shall be able to buy them in Paris . . . they are surprisingly free from any trace of throat irritation and have a delightful aroma which to me is very important."

Gloria W Vanderbilt

How Test Was Made

Mrs. Vanderbilt was blindfolded, and, in the presence of two responsible witnesses, was given one each of the four leading cigarettes to smoke . . . To clear the taste, coffee was served before each cigarette . . . Mrs. Vanderbilt was unaware of the identity of these cigarettes during test . . . After smoking the four cigarettes, Mrs. Vanderbilt was asked to designate by number her choice . . . She immediately replied: "Number 3" . . . which was OLD GOLD.

How To Achieve Beauty

By MME. HELENE RUBINSTEIN

Reducing Rhythmics for Neck and Shoulders.

The neck and shoulder line is so very lovely when it is pretty, that you certainly should pay a reasonable amount of attention to either making it so or keeping it so. The unpleasant lumps of fat that form on neck and shoulder blades are usually neglected until they really do spoil the entire body line. I have already described an exercise which is particularly good for the shoulders. But I shall repeat it here.

Lie flat on your stomach on the floor. Place the weight of your body on the palms of the hands, raising your body up and down several times balanced between the toes and palms. Do this very slowly, for the best results.

For a special neck exercise, stand in a normal position. Slowly lift the head upward, turn to the right as far as possible, keeping the head stretched far up and slightly backward. To make the movement more effective, open and close the mouth while you are turning. Slowness is a prime essential of success in this exercise. Speed may strain the spinal cord.

Fold the arms on the chest, and throw them sideways, fingers resting on the shoulders, elbows pointing down. Eight counts.

And this last one is particularly valuable for both developing and reducing. Stand very erect. The muscles of your shoulders and arms are to be contracted, and then expanded, in slow, deliberate movements. To do this, assume the attitude of a hollow chest, shoulders curving forward and lungs cramped. If you are doing it correctly, your upper arms and shoulder blades feel slightly uncomfortable. Now press the shoulders far backwards, doing the expanding in another eight. The exercise, you see, must be very slow.

Another neck exercise is as follows: Turn the head to the right, then forward down to the left, and then throw the head back very slowly, using a full 16 counts for the movement and eight more for the position of head thrown back. Reverse the movement and repeat eight times.

The ordinary chin rotating movement is an excellent exercise for the development of a pretty, slender neck, and to insure good carriage. I suggest you do the very simple thing of standing against a wall pressing back your shoulders until they touch.

Another very simple shoulder excercise which I have particularly recommended for girls of the student age, and the student round shoulders, is this: Bend the arms at the elbows, finger tips resting on shoulders. Work the bended arm in a circular movement, first forward, and then back, eight times each way. Do the movement slowly and you will find it more effective. Do it evenly, to music, and you will find it more pleasant and graceful. I think you have a good selection of neck and shoulder rhythmics now. And I know if you do them faithfully, you will soon be boasting a very beautiful neck and shoulder line.

SPARKS SET AN AWNING ON FIRE

An awning on the property of C. M. Cotton, 707 West Washington street, was set on fire Tuesday afternoon about four o'clock by sparks from the chimney of the home. The firemen were called by an alarm from box 64. The loss is estimated at $5.

Standing makes back and legs ache

How ¾ of the workers in the Straus Silk Mills relieve tired muscles

". . . It's as good a job as any mill worker could ask —nice people to work with, good pay, fair conditions—but a factory job anywhere is bound to be hard work."

ONLY the mill workers themselves know how legs and feet can ache and how lame backs can be after a long day walking up and down a spinning frame.

Something they must have to take the ache out—to relieve the stiffness and fatigue which might otherwise make it necessary for them to miss many a day's work.

The workers in the Straus Silk Mills in Trenton are a particularly fresh, wholesome-looking lot of women. And so we asked them what they do to prevent aching and strain from standing at a spinning frame all day.

From three-quarters of them came promptly the answer, "I never use anything but Sloan's."

Everywhere the leading remedy for muscular pain

Everywhere you go you hear the same story from people whose work brings a strain on their muscles.

Read the experience of this New York woman—

"I had such a backache I didn't know what to do. I used Sloan's Liniment, and in half an hour I was better. Now, when anyone has a pain, I say, 'Use Sloan's.'"

Another woman writes—

"The pain in my back was like a knife stab and it left me helpless. Sloan's Liniment was given me to ease the pain and I am now able to do all my own work."

Sloan's Liniment is scientific—absolutely reliable because it works by the quickest, surest method known to relieve pain. It stirs up the circulation—brings new blood right to the spot where the pain is, sweeps away the cause of the trouble.

You can get it in any drug store. A bottle that will last you a long time for 35 cents. Use it for—

Rheumatism — *Lame muscles*
Sciatica — *Stiff neck*
Lumbago — *Colds and congestions*
Neuralgia — *Sprains and bruises*

A company doctor who cares for hundreds of workers every year says: "People whose work exposes them to strain or to damp and cold usually suffer from a good deal of muscular soreness. We find that Sloan's gives them quick, positive relief."

One of the workers in the Straus Silk Mills. ¾ of these workers said that after a long day on their feet they find Sloan's their best help for tired backs and legs

Mercer County Poor Directors Plan Hospital

Projected Hospital Has Been Passed By Five Grand Juries Since January

MERCER, April 12.—The poor directors of Mercer county will take the initiative in the controversy between that board and the county commissioners over the building of a hospital for the chronic sick at the county home, estimated to cost from the plans already drawn and accepted the sum of $160,000.

Since taking office on January 1 last, the matter has been one of undecision on the part of the commissioners, due to the status of the county with a floating debt that will total close to $300,000 to be taken care of.

The poor directors point with pride to the efficient management of the home, where the insane and poor of the county are cared for at a cost of less than one mill of the county tax.

They also state that the hospital has been passed by five grand juries and the court has approved the plans for the hospital that were O. K.'d by the last board of commissioners.

It is learned today that the deadlock is liable to be broken by a proceeding that may be brought by the poor directors that will make the matter one of court decision.

Budget Of Mercer Remains At $1400

Council Will Fix Millage Tax At Meeting To Take Place Friday Evening

MERCER, Pa., April 12.—The budget for Mercer borough remains fixed at the same sum of $14,000 as in 1927, it is reported today by Solicitor L. R. Rickard.

The budget has been gone over and passed on by the council.

Council will fix the millage at their meeting next Friday evening.

It is expected to remain the same sum of 15 mills for general purposes, seven for sinking fund and one for library.

PETER'S ADVENTURES in ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

WHO SHALL BE KING?

Mr. and Mrs. Oven Bird were not a bit more modest than the rest of the feathered folk that Peter had met. The little lady preened her feathers and tossed her head. To be sure her husband did say:

"It is really not polite to talk about ourselves, my dear. Perhaps if you had waited the boy here would have told us how beautiful we are."

But as he spoke he raised his wings and hopped over to a tiny puddle of water where he pretended to be taking a drink. Peter, however, caught him admiring himself in its shining surface. It was plain to be seen Mr. Oven Bird was just as proud of his golden crown as was his mate. But it was not of their beauty that the boy was thinking as he looked at them.

"How small you are to be a king and queen," he spoke slowly. "I shouldn't think that any birds so tiny would make good rulers. There are so many that are so much larger."

Mr. Oven Bird went right on admiring his image in the mirror, but his wife grew very angry at the boy's words.

"Listen to the fellow!" cried she. "He is a human and you are a bird—husband—but you both make me tired; each of you set such great

store on strength and size. As if they make any difference in how clever a bird may be. I say that Eagle is not the king of birds."

Slowly Oven Bird turned from the puddle and came hopping towards the others.

"Then who is, my dear?" he asked, quietly.

Peter started.

"Those are exactly the very words I overheard you say when I was talking to Butcher Bird!" cried he, eagerly. "Who is the king of the birds, Madame? Please do tell me."

"Wren, of course." Mrs. Oven Bird was quite decided about it.

"Nonsense!" began her husband, but paying not the slightest attention to Mr. Oven Bird the little lady continued to talk to the boy.

"I though that every one know Wren was king of the birds." She nodded towards her mate. "Mr. Oven Bird will not admit it, but he knows perfectly well that it is true. How could Eagle be king, as husband declares he is, when Wren won the election."

"What do you mean? I didn't know birds ever voted." Peter was very curious.

"Certainly birds vote when there is anything to be decided upon." Mrs. Oven Bird looked at Peter reproachfully. "But never mind discussing that. There is a reason why Wren deserves to be known as the king of the birds. I'll tell you the story as it was told to me!"

Very Few Farms Changing Hands

Farm Values Decreasing In Districts Remote From Improved Roads

(International News Service)

HARRISBURG, Pa., April 12. — Survey of farm ownership completed recently by the Federal-State Crop reporting service show very few Pennsylvania farms are changing hands, it was announced today.

Trend of farm values was found to be sharply upward in the vicinity of the larger cities, especially Philadelphia. This was shown to be due not only to the operation of speculators who are developing suburban sections but also to a well defined trend toward ownership of small plots.

Many of those who are buying land in the vicinity of large cities were found to be people anxious to supplement their incomes by operation of small truck farms and raising of fruits and vegetables.

The desire to own old homesteads, especially the Colonial stone houses in the eastern part of the State, has been responsible, the survey found, for rapid increase in farm values.

In other sections of the State, especially in those where there is little tertile soil, the trend of farm values was found to be continuing downward. In these sections farms are continually being deserted and efforts to sell them except for hunting lodges prove futile.

The survey found that the majority of deserted farms are located along sections where roads at present are unimproved and where hope of improvement is remote.

Although farm real estate was reported as an unprofitable investment in most sections of the State the survey found comparatively few farms has been sold as the result of foreclosures.

Porcupine Eats Dynamite; Chases State Forester

(International News Service)

HARRISBURG, April 12.—Rules governing the conduct of state foresters do not cover a case where one of them found himself in a fire tower, 60 feet above the ground, with a porcupine which had just finished a meal of dynamite.

R. Lynn Emerick, chief of the bureau of information, has received a report from District Forester Paul H. Mulford, Wells, outlining the troubles of one of his men who found himself in that position.

The forester discovered the porcupine feasting on the dynamite, which had been stored in the observation tower. The forester attempted to flee, but the porcupine followed. The ladder was not large enough to permit passing, so the forester beat the "porky" to the ground and both fled in opposite directions.

Society

Junior Hadassah

An important business meeting of the Junior Hadassah was held Tuesday evening at the Beth Sholem center, at which time plans for the May dance at Cascade Park on May 8th were formulated.

Miss Molly Frank is chairman of the dance and her aides are the Misses Dora Winick, Anne Shifman, Mary Pitler, Florence Weinberg, Pearl Gilles and Rebecca Fishkin. Miss Goldie Levine is vice chairman.

"The Regional Comment", a most interesting news sheet, edited by Miss Hazel Rosenblum, a former New Castle girl, now residing at Butler, was distributed among the members. The Comment is a lively number and of exceptional interest, both locally and internationally.

At the next meeting, to be held at the home of Miss Anne Shifman, president, an election of officers will be held. Miss Mary Pitler is chairman of the nominating committee.

Bridge Party

James H. Lewis, Edison avenue, entertained in honor of David Russell of Vall Halle, N. Y. Three tables were in play and high score favors were won by Mrs. Percy Howall and Martin Mills.

Dainty refreshments were served by Mrs. J. C. Lewis, assisted by her niece, Miss Gertrude Davis, of Philadelphia.

W. F. M. Class

The W. F. M. class of the People's Mission met in the home of Mrs. Harry Shaffer of Harbor street. A social time followed the business session. Refreshments were served by the hostess, assisted by Mrs. Charles Morgan.

In two weeks Mrs. Edward Dout, Bell avenue, will be hostess.

The Reading Circle

Members of The Reading Circle will meet with Mrs. W. W. Sniff, 432 Kurtz Place, Monday afternoon at 2:30 o'clock instead of with Mrs. George W. Conway as planned.

Rev. Beiderwolf To Come To City

Noted Evangelist To Speak Here Under The Auspices Of The City Mission

The services at the City Mission, 17 South Mercer street, this evening and Friday evening will be conducted by Rev. G. A. Leichliter of Buffalo, N. Y. Rev. Leichliter is always greatly welcomed at the services at the City Mission and his gospel messages in song is appreciated by his many friends who are glad of the opportunity of hearing him. The services will begin at 7:30 each evening.

Plans are being made whereby the people of New Castle will soon have the previlege of hearing the great evangelist, Rev. William E. Biederwolf who is also president of the Wiona Lake Bible conference as soon as a suitable date can be arranged.

Mild Epidemic Of Measles In City

Dr. William L. Steen today stated that there is a mild epidemic of measles in the city but it is nothing to alarm anyone.

The first cases appeared in the Martin Gantz school district and while these cases mostly have subsided, the Highland avenue school district is now affected.

There are approximately 50 cases. Latest patients follow:

Edward McGill, 6, 422 Garfield avenue; Eloise Sager, 7, 119 Sheridan; Archie Evan, 6, 103 Garfield; Jean McLaren, 235 Hillcrest, and Edwina Raub, 229 Northview avenue.

ROOFS OF THREE BUILDINGS NOW HAVE CITY LABEL

Fliers Will Know They Are Over New Castle, Pa., In Future

Suggestion through The News last night that the name of the city be painted on roofs is bringing results.

At least three are now placarded, and it is expected that before many days have passed, others will be labeled with the name of this city.

Fred March's shop was lettered some time ago. Smith's garage in Sycamore way now carries a large sign, showing New Castle and the direction to the north, while Caldwell & Miller have also completed lettering the roof of their garage on Elm street with giant letters, designating "New Castle" and giving the northerly direction.

Indications are that further reports will be received by The News of this progressive work and that it will not be long before any aviator flying over New Castle will know that he is passing over the metropolis of western Pennsylvania.

Personal Mention

Frank F. Mayers of Scott street is confined to his home with illness.

Mrs. J. G. Langsdale, Moody avenue, is visiting friends in Marietta, O.

Miss Faye of Pittsburgh, is the guest of Mr. and Mrs. Albert Snyder, Fairmont avenue.

William Boughter of Harrisburg is visiting at the home of Mr. and Mrs. James Boughter of West avenue.

Miss Dorothy Hoover, Winter avenue, has returned from Marietta, O., after spending two weeks with friends.

TINKERING WITH LAWS

The frequent changing of laws, with good intentions but with ill results, affords the legislator another opportunity to serve his constituents. "Tinkering with laws" is not good business and we have in this state some shining examples of how a legislature can keep things in a turmoil by experimenting instead of definitely establishing the legal status of a certain matter, or at least reduce experimentation on the subject to a minimum.

Get Rid of
Nervousness
Before It Gets Rid Of You

If you are weak, run-down or nervous, one box of Lifetone Tablets will show you the way to glorious, vigorous health.

The mighty energizing power of Lifetone Tablets shows so quickly that often one package is all that is needed to turn rundown backward men and women who lack confidence and ambition into strong, vigorous outstanding personalities.

It isn't any one ingredient that does this, for without the other health builders embodied in this quick-acting prescription a much longer time would be necessary to greatly increase the physical and mental power of weak, nervous, tired-out people.

Start to get rid of nervousness today; take two Lifetone Tablets after each meal and two at bedtime for two weeks.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel much more ambitious, more vigorous and keen-minded, the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

Love and Megown and druggists everywhere will gladly supply you. Mail orders filled—72 tablets $1.00.

Listen! Girls!
He Likes to Hold a Soft, Velvety Hand
Not a Nutmeg Grater

What man ever got a thrill out of holding rough, scratchy hands? And what girl isn't ashamed of them? So don't neglect them—not when it's so easy to keep them always soft, lovely and alluring in looks and touch. All you have to do is to rub Joint-Ease on them, working it in and between the fingers for two or three minutes until it is absorbed and you'll hardly be able to believe your eyes, so smooth and silky textured will they become. Try this two times a week and you'll always be the possessor of hands you are proud to show. Joint-Ease is obtainable at all druggists. Only 60c a tube. McKee's Kut Rate Store and Eckerd's of New Castle, Inc., are selling lots of it.

Final Children's Class Of Course

Six Classes Have Been Conducted In Special Bible Study Course

The sixth and final Bible study class for children was conducted in the Madison Avenue Christian church Wednesday after school. There were only to have been five classes in the series but a special class was held for a general review on Wednesday. Rev. W. W. Sniff, pastor of the church, conducted the meetings. Outlines had been given to each person attending the class and on Wednesday a very systematical review was conducted. The theme for the series was "Seven Great Events in the Life of Christ." Taking the sub-topics, The Birth of Christ, the Baptist of Christ, the Temptation of Christ, the Transfiguration, the Crucifixion, the Resurrection, and the Ascension. As a result of the general review, it was found that all persons attending the classes had really learned a great deal about these topics. Children attending the class were very attentive and interested throughout the series.

A little later in the spring as soon as the weather permits there will be an outing of some kind for members of this class and members of the last class of this kind that Mr. Sniff conducted.

Miss Cora E. Ritchie Enroute To Attend National Convention

National Y. W. Convention Convenes On Saturday At Sacramento, Calif.

Miss Cora E. Ritchie, general secretary of the Young Women's Christian Association of this city has left for California where she will attend the National Young Women's Association convention.

This is the tenth annual national convention and convenes on Saturday, April 14, and will be in session until Friday, April 20, inclusive. The convention is being held in the Memorial auditorium at Sacramento.

Miss Ritchie will not return immediately after the convention but plans to tour California and other places of interest in the west, returning home during the second week of May.

City Plans To Cap South Mercer Curb

Catch-Basins To Be Placed In Market Alley To Carry Away Water

The curb on the west side of South Mercer street is to be capped with concrete to bring the curb to the level of the sidewalk, according to Councilman Davies who was asked today if the city would make the curb and sidewalk even in heighth.

Councilman Clayton Reeves stated while inspecting South Mercer street, that catch basins are being placed in Market alley, between South Mercer and South Mill streets, to carry off the water which has collected in pools.

Suit To Recover Value Of Property

The case of H. W. Michael against the Township of Pulaski is on trial before Judge Chambers in county court. It is one in which plaintiff is seeking to recover for land taken by the township for the erection of a tool house. Mr. Michael claims that the property was located along the railroad tracks and was worth $1,000. The defense maintains that the price asked is excessive, some of the witnesses for defense placing the value at less than one-third the price asked.

C. M. T. C. Passes Quota In State

Notice Received Here That Training Corps Has Exceeded Quota

For the first time since its inception, the C. M. T. C., in other words, the Citizens Military Training corps, has reached and exceeded its quoto, not only in Lawrence county, but throughout the state of Pennsylvania, of young men, who desire to spend a month in receiving military training along specialized lines that appeals to them.

According to a communication just received by Pat J. Dempsey, county chairman for the C. M. T. C. from Colonel R. M. Brambila at the headquarters of the 99th Reserve division in Pittsburgh, the accepting of applications for training camps in the third army corps, has been indefinitely suspended in the state of Pennsylvania for the reason that there have already been tentatively or finally accepted in the state, more young men that the accommodations of the various camps can take care of.

This according to Chairman Dempsey and Captain M. L. Craig, who is deputy chairman and the army representative in the C. M. T. C. and reserve work in this section, is the result of the earnest effort made in the past several years, to interest the people of this country in the reserve army, which is to prove the bulwark of the nation in the next war.

One of the results may be that increased accommodations for the work of training the youth of this country along military lines, will be provided.

Community Night At Mt. Jackson High

Will Be Observed With Pleasing Program Friday Evening April 13

Community night will be observed with pleasing exercises in the North Beaver township High school at Mt. Jackson Friday evening, April 13 at 8 o'clock.

This is the second performance held by the community, the first one being last November when about five hundred were present.

The program for the evening will consist chiefly of motion pictures a number of them being humorous. Among the pictures that will be shown will be a study of John Greenleaf Whittier and Aesop's Fables.

Music by the High school orchestra will be an outstanding feature of the program.

The slogan for the evening is, "For Fun and Fellowship". It is expected that the attendance will exceed that of the last meeting. There will be no admission but a free will offering will be taken to defray expenses.

MEDICAL SOCIETY PAYS TRIBUTE TO TWO OF MEMBERS

(Continued From Page One)

sented with a bill fold, in which was inscribed: "From the members of the Lawrence County Medical society commemorating 50 years of active practice in medicine."

"I cannot find words to express my personal feelings," said Dr. Harris in answer to Dr. Zerner's speech. "Needless to say, I am proud to be one of the pioneers. But when I see my associates, I want to start all over again. It is a wonder to me why I should receive this honor. But I appreciate it and I wish that I could tell you how

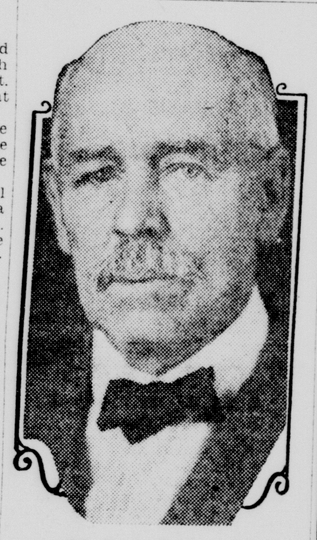

DR. D. R. HARRIS

I appreciate it. I can only say I thank you and may you all prosper.'

Dr. Wallace next told how he appreciated the honor that was done him by the members of the medical society.

"It is a great pleasure for me to be here," he said, "and especially after 50 years' service. Much can happen in that time and much did happen."

Dr. Wallace then sketched the organization of the Lawrence County

DR. R. A. WALLACE

Medical society from 1876 to the present and again thanked the members of the society for the honor that was being done to the veteran practitioners.

Many Congratulations.

At this time it was announced that both Dr. Wallace and Dr. Harris had received telegrams from all parts of the United States cangratulating them for their work during the 50-year period.

Dr. Jefferson Wilson of Beaver Falls, a special guest at the dinner and a man who has spent a great number of years in the medical profession, was presented to the society and congratulated Dr. Wallace and Dr. Harris.

Dr. Theodore Diller of the University of Pittsburgh faculty next told of his associations with the two doctors and wished them many more years of successful practice.

Dr. Harold A. Miller of Pittsburgh read a paper on Toxemia of Pregnancy, illustrated with motion pictures and lantern slides and Dr. W. L. Campbell gave the response.

The committee for the occasion was composed of Dr. E. U. Snyder, Dr. E. Kaplan, Dr. H. E. Zerner and Dr. John Foster.

So many authors seem to think a man can go the rest of the way on his reputation after he gets to first base.

Tomato Gelatin Salad—Soak four tablespoons gelatin in one-half cup cold water five minutes. To one can of tomato soup add two cups boiling water, two tablespoons sugar, one-third cup vinegar and one tablespoon onion juice. Strain and add the dissolved gelatin. Pour into moistened individual molds and set in the ice-box to cool. Turn out on a bed of shredded lettuce and serve with a mayonnaise salad dressing containing two tablespoons chopped green pepper.

Buttered Cauliflower—Select a firm white head and soak in cold salt water for fifteen minutes. Then cook in a waterless cooker or boiling salt water, the whole head, until tender, being careful not to overcook. Twenty minutes in boiling water will be sufficient. Carefully lift into serving dish and spread over it two tablespoons melted butter.

Raspberry Sponge—Take one box raspberry gelatin, add one cup boiling water to dissolve, then add one cup or raspberry juice from canned raspberries. Just before it hardens whip with egg beater. Arrange equal quantities of gelatin in sherbet dishes. Over each place two tablespoons raspberries from which the juice was drained and top with sweetened whipped cream.

Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting relief?

Why cutting does not remove the cause?

Do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel?

Do you know that there is a harmless internal remedy discovered by Dr. Leonhardt and known as HEM-ROID, now sold by McKee's Kut Rate Store, Eckerd's of New Castle, Inc. and druggists everywhere, that is guaranteed?

HEM-ROID banishes piles by removing the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID today.

Verdict For Defense Rendered By Jury In Paper Products Case

In the case of the Beloit Iron Works company against John P. Lockhart, receiver for the New Castle Paper Products company, which has been on trial before judge Hildebrand, the jury returned a verdict for defendant and placed the value of the machinery in dispute at $10,419.

The principal point at issue was whether or not a balance due on an installment contract constituted a prior claim or whether the iron company would have to come in with the other creditors, after the appointment of the receiver.

The verdict rendered sustains the contention of the receiver that the iron company will have to share in the assets with other creditors.

School Teachers Will Be Elected

Principal Matter Before Board Session This Evening At North Street School

Teachers for the New Castle school system will be elected tonight when the New Castle school board holds its regular monthly meeting in the North street building.

Dr. Clyde C. Green, superintendent of schools has been literally swamped with applications this year for positions. In all there are over 400 applications from young men and women who wish to become teachers in this system.

There are about 360 teachers in the New Castle system and of this number there are approximately 40 vacancies, or about a ten percent turnover. This is unusually small and of these many of them are made vacant by the teachers leaving to get married. Few teachers leave the New Castle system to teach in other cities.

It is possible that there will be a few other vacancies between the adjournment of school in June and the opening of September.

Building Largest Engines In World

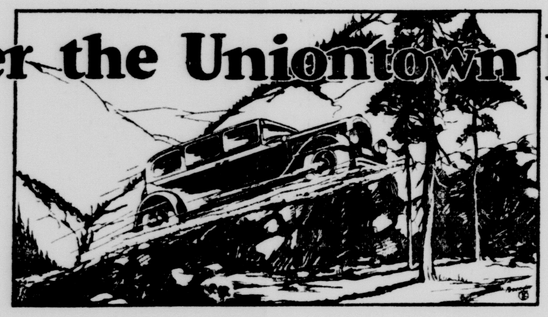

CHESTER, Pa., April 12.—Twenty-three of the largest locomotives in the world are being constructed at the American Locomotive company's plant here, R. E. Fisher, manager of the plant, announced. The engines will be turned over to the Union Pacific railroad when completed.

Each engine will have six driving wheels on each side with a 90,000-pound tractive effort. The largest engines now in existence only have five wheels on a side.

The engines will not be assembled at the Chester plant. The parts will be made here and shipped to Dunkirk or Schenectady, N. Y., for final assembly. The locomotives will be used over the mountainous trails of the Union Pacific in the far west.

Over the Uniontown Hill

with a long, long lead

1929 Performance *that you can have* **Today**

Thirty miles south of Pittsburgh, the old National Highway climbs up over the backbone of the Alleghenys—the famous Uniontown Hill.

It's a heartbreaker—this Uniontown Hill. And it's the hill of hills to which all motordom goes for the final proof of a car's fitness after the easier tests on private proving grounds have been completed.

To this hill, Reo engineers went recently to test the new Flying Cloud. With the Flying Cloud went a number of the country's best known automobiles—a six, the greatest seller in its class, another which has won a unique record for increasing popularity, a third of recognized great engine power, and still another considerably higher in price than the others.

Here are the results of the Uniontown tests:

1 The Flying Cloud swept over the crest at a speed 22 per cent greater than that of its nearest rival, and sixty per cent faster than the most expensive of the cars tested.

2 The Flying Cloud made the entire climb of 1000 feet in 2.1 miles in from 14 per cent to 28.5 per cent less time than any of the others.

3 The Flying Cloud's maximum speed attained during the climb was 14 per cent greater than that of the next fastest car.

Speed Too!

Here assuredly is proof of greater power—and power that gives great speed on the straightaway. In speed trials, the Flying Cloud showed a clean pair of heels to all of the other cars tested. The car that came the closest to the Flying Cloud in the hill-climbing tests was the slowest on the level, while the car that was second to the Flying Cloud in top speed had been the slowest in hill climbing.... The new Reo Flying Cloud thus proves itself in both speed and hill-climbing. Others *may* achieve such efficiency in another year, but for *today* only the Flying Cloud gives you such demonstrated brilliance, such proved power. Try the new Flying Cloud for yourself. It will prove to you how far in advance it is.

Planning Kite Flying Contest

Jack Hulme To Engineer Contest At New Wilmington

MAKING PLANS FOR GREETING ROTARY ANNS

(Special To The News)

NEW WILMINGTON, Pa., April 12.—New Wilmington "kids" will come into their own in a few days when a kite-flying tournament will be staged in the college town. This kite-flying tournament, which is being planned by Jack Hulme, will be open to all the boys and girls of the college town.

Kites of any size, shape or description are eligible in the contest, which will probably be handled by two or more adult judges. The tournament will be run in accordance with regular kite-flying tournament rules and a valuable prize will be given to the winner.

Initiative in planning this novel contest has been taken by Jack Hulme who since his great success with the local Scout troop, has taken an active interest in all the "kids" in the community.

In preliminary preparation for the enormous reception that is to be given to the women Rotary delegates of the New Castle convention in this town the afternoon of April 26 a local committee of women to take charge of this event has been named.

Mrs. W. Charles Wallace has been named chairman of this committee and the other women who serve on it are as follows: Mrs. Elmer B. Russell, Mrs. R. S. Smyser and Mrs. A. A. McDonald.

The college town committee will cooperate with the New Castle women's committee, of which Mrs. J. F. Rentz is chairman. A conception of the size of the coming reception may be seen through the fact that there are 300 guests expected.

At this week's meeting of the local Scout troop Alvie Gaines took the Scout oath and was admitted into the troop. In the course of the meeting Jack Lewis, head of the New Wilmington borough Scout committee, officiated at the performance of tenderfoot tests on the part of some of the Scouts.

The troop Scoutmaster, Jack Hulme, gave a talk on Scout advancement. Before the adjournment of the meeting plans were made to meet again Saturday morning for the purpose of taking outdoor tests.

PULASKI NEWS

Mrs. Laura Wilson entertained a number of friends at a carpet rag sewing at her home Monday evening. The evening was spent in a social good time and sewing. Dainty refreshments were served by the hostess, assisted by Mrs. Dora Onstott. Mrs. Roy Bilger and Miss Jessie Gibson. Others present were Mrs. William Cover, Mrs. J. H. Davidson, Mrs. Lloyd Mitcheltree, Mrs. S. S. Walker, Mrs. Mary Jennings, Mrs. Joseph Evans, Mrs. H. K. Gilliland, Mrs. Robert Stowe, Mrs. J. R. Meek, Mrs. J. P. Graham, Mrs. Frank Clark, Mrs. Marie Smook, Mrs. Ernest Etzrott, Mrs. Ransome Stowe, Misses Lois Kerr, Rebecca Hull and Johnnie Clark.

A very pleasant family dinner was enjoyed at the home of Mr. and Mrs. William Kerr at noon one day recently, the occasion being in honor of Mrs. Kerr's birthday anniversary. The table, where covers were arranged for 18, presented a beautiful appearance, yellow candles being used and a large yellow and white birthday cake forming the centerpiece. The honor guest, in behalf of those present, was presented with a lovely set of silver salad forks in memory of the occasion. A fine dinner was enjoyed and Mrs. Kerr was assisted by her daughter, Miss Lois Kerr. Others present were Mr. and Mrs. Lee Allen and daughters, Helen and Jean; Mr. and Mrs. Newell Kerr and children, Louise, John and Elizabeth Jane, of New Castle; Mr. and Mrs. Francis Kuhn and daughter Hazel, of New Bedford; Mr. and Mrs. J. R. Meek and Miss Dorothy and Arthur Meek.

Postmaster H. L. Torrence spent Wednesday at Lisbon, being called there to see his sister, Miss Olive Torrence, who suffered a stroke last week and is quite seriously ill. Miss Torrence has frequently visited her brother here and her many friends are sorry to learn of her illness.

Mr. and Mrs. D. L. Cameron and daughters, Thelma and Beryl, of New Castle, were guests of Mr. and Mrs. C. C. Boyd and Mr. and Mrs. Muryl Boyd Monday evening.

Mr. and Mrs. Stewart Price of New Wilmington were callers on the latter's parents, Mr. and Mrs. William Cover, Monday evening.

Mr. and Mrs. William Kerr and daughter, Miss Lois Kerr, were recent guests of Mr. and Mrs. Francis Kuhn of New Bedford.

Mrs. J. B. Crawford, who has been confined to her home with illness, is some better. Her daughter, Mrs. W. J. McCallister, of New Castle, has been spending some time with her.

Mr. and Mrs. Clarence Turner and grand-nephew, little Donald Clark, of West Middlesex, were guests on Wednesday afternoon of Mr. and Mrs. Joseph Clark.

Fraternities Have Annual Elections

Westminster's Two National Fraternities Name Officers For Year

(Special To The News)

NEW WILMINGTON, Pa., April 12.—Westminster's two national fraternities, the Theta Upsilon Omega and the Phi Pi Phi, held their annual elections at the regular meetings held last night at the respective chapter houses.

The Phi Pi Phi elections which were conducted by the retiring president, Donald McClure, were held at 10 o'clock following a business meeting of the fraternity.

The newly elected officers are: President, Howard Hamer of Erie; vice president, Ernest Griggs of West View; secretary, Bud Mansell of New Wilmington; chapter chaplain, Milton Scott of Connellsville; chapter sentinel, John Strothard of Ashtabula, O.; steward, John Lytle of Sharon, chapter historian, David Wallace of Rockville Center, N. Y.

After the election the members filed to the College Inn where the boys enjoyed a repast at the expense of the newly elected officers.

Theta Upsilon Omega election results were also announced. The newly elected officers are: Master, James Guthrie of Connoquenessing, Pa.; marshal, Joseph Smith of Youngstown, O.; steward, Stanley Pitzer of New Wilmington; recorder, Harry Welsh of Homestead; scribe, Graham Fithian of Butler; chaplain, Charles Ayers of Cannonsburg; herald, Wilbur Baldinger of Butler.

The installations of the new officers of both fraternities will take place in the near future. The Phi Pi Phi announce their installation for Friday, April 13.

College Girls To Meet In Debate

Westminster And Bethany Teams To Meet Tonight At Westminster

(Special To The News)

NEW WILMINGTON, Pa., April 12.—Representatives of Bethany and Westminster will meet tonight in a dual girls' debate in the United Presbyterian church, Westminster upholding the affirmative side of the question, Resolved: That the direct primary election procedure be abolished.

Westminster's team includes Miss Evelyn Winger, New Castle; Miss Edith Round, New Castle, and Miss Margaret Young, New Castle.

Tomorrow night Westminster will send two co-ed forensic teams into action. An affirmative team will debate the same question with representatives of Waynesburg on the home platform, while a negative team will journey to Morgantown to meet a West Virginia university group.

These two teams include June Scwartz, Akron, O.; Cora Williams, Cresson; Katherine Boobyer, Pittsburgh; Hazel Brush, Carnegie; Carol Clark, Johnsonburg, and Isabelle Hitchings, Warren, O.

Mail Mother's Day Greetings Early

Postmaster Advises Greetings Be Mailed In Plenty Of Time For Delivery

Since it is becoming more and more customary to mail greetings, gifts and flowers for Mother's Day, Postmaster Edwin W. Crawford urges all patrons of the post office to mail their greetings in plenty of time for them to reach their destination and be delivered on or before Mother's Day which will be observed on Sunday, May 13 this year.

If it is the wish to have the mail delivered on Mother's Day it will be necessary to affix postage for special deliver in addition to the regular postage and should be mailed so as to reach its destination Saturday night or early Sunday morning. Or if special delivery is not desired the greeting should be mailed so as to be delivered on Saturday.

The postmaster in making this recommendation has in mind that the sentiment and value of such remembraces are much lessened if they are not delivered until after Mother's Day. And each year a number of greetings are thus delayed.

"Joy of Living"

FULL of the *"Joy of Living"*, are healthy little girls and boys. Clear-eyed, rosy-cheeked. *Happy!* And Heinz Rice Flakes are the kind of food that *keeps* them so.

First of all, this delicate new cereal *tastes* so good. Crispy; crunchy; like golden-brown nutmeats.

But it's "so good" for another reason, too! For Heinz Rice Flakes are naturally *"laxatized"* by an entirely new process in cereal-making. This process was developed and is owned exclusively by Heinz. It so utilizes the natural roughage of the rice itself as to impart to the flakes the qualities of a mild, *natural* laxative.

The whole family will respond to the new taste-thrill of Heinz Rice Flakes. And Heinz Rice Flakes will respond to the needs of the whole family by helping Nature to keep them in the pink of health—full of the *"Joy of Living"*.

The E. E. Ladies class of Neshannock U. P. church met at the church on Tuesday evening. The following officers and committees have been elected for the ensuing year. Teacher, Mrs. Margaret Shaw, assistant teacher, Mrs. Melissa Forbes, president, Mrs. Marguerite Ritenour, secretary, Mrs. Margaret McConnell, assistant secretary, Mrs. Martha Baker, treasurer and flower superintendent, Mrs. Lena Patton, devotionals superintendent, Mrs. Shaw, social committee for three months, Mrs. Ada Stewart, Mrs. Nellie Longwell and Mrs. Edith Mounts, entertainment committee for three months, Mrs. Pearl McCracken, Mrs. Lois McConnell and Mrs. Melissa Wimer. After the business meeting a social good time was enjoyed by all and later lunch was served by Mrs. Ritenour, Mrs. Baker and Mrs. McCracken.

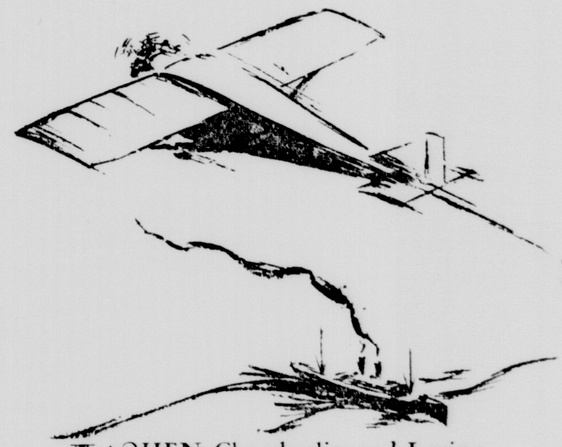

Advanced Christian Leadership class will meet at the church on Sunday evening at 7:30 o'clock. Teacher, Rev. J. W. St. Clair.

Truck load after truck load of ashes are being hauled to the Airport on the Harlansburg road. All day Tuesday and Wednesday men, horses, and trucks were kept busy hauling, spreading and dragging the ashes over the field, getting ready for Chamberlin's coming on Thursday. The crowds that have gathered at the field all week, indicate that Thursday will be a big day for the Harlansburg road.

Mr. and Mrs. Isaacs of New Castle visited with T. C. West and family on Tuesday evening.

Quite a number from around here attended Presbytery at Mercer on Tuesday.

Herschel Ritenour, Jr., who has been confined to his bed for the past 9 weeks is able to be up an hour a day now and is improving nicely.

Tells Of Unique Philippine Customs

Nephew Of Dr. Matheny Writes Interesting Letter From Philippines

Many Features Of Life In Uncle Sam's Island Domain Are Mentioned

Dr. S. M. Matheny recently received an interesting letter from a nephew, Leon Conner, who is teaching in a school in the Philippine Islands at San Fernando. Extracts of the letter are published here showing some of the interesting customs of the Philippine people.

Mr. Conner whose home was originally in Butler county, near Renfrew, attended school at State College and was in the army during the war. After the war he finished his education at Washington University and then with his wife spent some time in educational work in Alaska, going from there to the Phillippines during the past year.

Extracts from the letter follows:

Time goes on here, we find, just the same as it does anywhere else. If anything it goes a little faster in view of the fact that 1928 arrived here a matter of twelve to sixteen hours earlier than it did in the States. We are rather sorry to see it moving along so fast because the hot season is coming closer day by day. April and May are the two hottest months of the year. The first week or ten days of June are very hot and then the rains begin and take the edge off the heat.

Philippine Weather

We have had ideal weather for the past two months, the best weather of the year and as nice as anyone could ask anywhere. The record was reached the first week in January when the thermometer got down one night to sixty-four in Manila and fifty-five in Baguio, the lowest temperatures recorded in years. The Manila papers came out with front page itms describing the hunt for blankets. Since then it has been getting a little warmer every day though it is always cool in the evening. It would be very hot if it were not for the fact that we are on the coast and the monsoons blow in from the northwest during the day. From nine to ten o'clock in the morning is about the hottest hour of the day because the sea breeze does not start until about ten o'clock. The rest of the day is cool if you stay out of the sun.

The weather has had almost no effect on the water. The temperature of the sea remained at about eighty degrees all winter. We have been going regularly ever since we have been here as swimming is our only exercise. We went swimming twice on Christmas day and on New Year's Eve we went down and swam the old year out and the new year in. We enjoyed ourselves floating on our backs in the warm water and thinking of the rain and slush in Seattle, the icy winds coming into Chicago from Lake Michigan and the snow and zero weather in Pennsylvania. It is much more pleasant swimming at nine or ten o'clock at night at this time of the year than in the afternoon because after the wind has blown all day the sea is too choppy to be enjoyable and not rough enough to be exciting. Three or four hours after dark the chop has all died down.

Christmas Customs

We did not enjoy Christmas very much. In the first place the Christmas mail was delayed in getting here and none of us was over happy on that account. We all had a regular Christmas dinner together in good old U. S. fashion, even down to having the table lighted with red candles. The big difficulty with our Christmas was that we could not fall in with the customs of the land in regard to the celebration of Christmas. It is considered the best of form to go around and ask friends for presents. The inhabitant, young and old, gather themselves into bamboo bands and go around serenading. After such a band has played a few minutes the members expect a monetary remuneration. If this is too small they will go away angry or, what is worse, they may keep on playing. If it is adequate they will go away and spread the news and ten more bands will come in their place. The children meet you on the street with "Merry Christmas" but instead of a greeting this is a request for a few centavos. If you simply reply with a familiar greeting they will say, "Yes, Merry Christmas." They gather under the house an don the steps and call out "Merry Christmas and a Happy New Year" for a half an hour at a time unless they are given something or deliberately sent away. As this keeps up for the whole holiday week it gets very tiresome. The whole week was made so unpleasant with occurrences of this kind that we determined not to spend the week at home next year but to make a trip into the mountains during the vacation. Where such a perverted way of celebrating Christmas began, we have no idea.

Hospital Ideas

Mrs. Connor decided to take sick leave and spent a week in the Mission Hospital here. Aside from getting repaired she got quite a lesson in hospital management. In the first place, when a member of the family goes to the hospital, all of the spare members of the connection, and they are many, go along to take care of the one who is ill. These "companions" sleep on the floor around the bed and do what they can in the work of caring for the patient. They supply their own fish and rice but they are continually running to the kitchen for water or to cook something so that they make general nuisances of themselves. The hospital maintains two nurses during the day and one at night whose duty it is to supervise these amateurs and keep a sort of chart of the temperatures and give the prescribed medicines. It is much like the old Lancastrian public school system where the upper grade children taught the beginners and the system is in force for the same reason: lack of funds to hire and keep training nurses. The first thing I was asked after Mrs. Connor went to the hospital was, "Who is her companion?"

The general diet is fish and rice. If you are well on toward recovery you get much fish and rice; if you are on a diet you get less fish and rice. An "Americana" is a rare occurrence in the hospital so they tried to be very nice to Mrs. Connor. They added two soft boiled eggs to her tray. The first time they were boiled about thirty seconds and then allowed to cool. I took the second one out to the kitchen and boiled it three minutes more. The next day the eggs came hard boiled. The biggest difficulty we had was getting things served hot. If anything were taken hot to a Philippino he would wait for it to get cold before eating it. They surely did try their hardest for her though, and lots of things that surely were exasperating we knew were done with the best of intentions in the world. Nearly ever time her tray was fixed it was decorated with "Cadena de amor," a pretty, red flower.

Native Dance.

I had got up to Baguio in the mountains for a day during the Christmas vacation. I went out to Trinidad five kilometers from Baguio to spend the night at the farm school. During the evening at Trinidad I had one of the most interesting experiences of my life. We has just finished supper about 8 o'slock when Mr. Wright the superintendent of the school called Mr. Abbot and me to the door. He hold us that he could hear a native drum on the mountain and that he believed a canao (canyow) was in progress. A canao is an Igorot dance something on the order of our North American medicine dances.

Mr. Wright got one of the boys at the school to guide us up the mountain. There was a path that would have been quite easy of ascent during the day but it was a moonless night and we stumbled over rocks and brush for about two kilometers. Every now and then Mr. Wright and Mr. Abbot would stop and listen from points for the drum. At first I swore they imagined they could hear it. I could hear nothing and usually I am as good as anyone when it comes to auricular tests. Finally I heard it. It was a regular dull sound somewhat like the sound of a sledge on a suspended plank. The sounds came two at a time; punk, punk—punk, punk—After I once heard it the sound did not seem to grow any more distinct as we climbed. I thought it must be all of another kilometer away when all at once a lighted doorway showed up within ten yards. We climbed up the stairs, for the house was set up on posts and went inside. It took me about five minutes to get oriented. The single room was dimly lighted by two pine knots one burning at each end of the room. The light was dim enough to begin with and then the room was blue with smoke from the burning knots. As for people all I could see at first was a prancing group in the center and persons standing, sitting and lying around the walls. Among these were a half dozen naked children. There were two drummers directly across from us. The drums were hollowed logs shaped like small torpedoes some four or five feet long. Over the nose about 8 inches in diameter was stretched a piece of deer skin. The drummers sat tailor fashion on the floor with the drums lying across their left legs so that the point of the drum was on the floor behind the drummer and the nose was just in front of him. Each drummer slapped the deerskin of his drum with the fingers of both hands. The music was not all drums however. Two young men were carrying copper disks about the size of a frying pan across the room and beating them in time with the drums. A third man was carying two short pieces of bar metal and hitting them together.

About now we could see some order in the dancing. Tin pan number one led off. Sticks came next followed by tin pan number two. Then came the male dancer. After he had made a couple of rounds a girl joined the circle. Then the circle went round and round just like the wildest Indian dance you ever heard or saw in the movies. It was interrupted every now and then by a girl passing around a cup of rice wine called "tapoy" when the dancers, musicians and spectators all took a sip. She seemed to know we had compunctions about drinking out of the community cup because every time she came to us she would wipe off the edge of the cup with her fingers. The wine was good but it was full of rice grains and (?). As I said before the light was very dim. This wine was potent too and while one is supposed to take but a sip each time, a sip every few minutes will do the work. One of the Igorots was laid out already with his head toward the wall and his bare feet sticking out in the room. His feet were in the way of the dancers so one of the mei sitting near him would bend the sleeper's knees and double his feet back. No sooner done than the Igorot would groan and straighten himself out again.

Guests Must Dance.

All this was very interesting for a half hour or so until one of the men approached us and told us in a mixture of Spanish and Igorot that since we had entered the door we would be expected to dance. From then on I was all eyes to see how the last dancer stepped. All too soon it was over and the High Mogul was coming toward me with the blankets. The male dancer has to drape a long (clean?) blanket over each shoulder before he enters the dance. The last thing I heard Mr. Wright say was, "You have to dance as long as the girl does.' The spectators started some sort of chant and I was on my way. After about five minutes along came the girl with the tapoy and I was glad of the respite. I needed the wine too. I soon got control of the situation enough to look around and see who my partner was. It was the mistress of the house and she was out to do me honor I guess because she danced and danced and then danced some more. I don't know whether that was it or whether she was trying to floor me. I pranced and waved my arms at first just as nearly like an Igorot as I could but the prancing grew less and the waving wavered long before she dropped out of the circle. I was near my side of the room and dropped out two seconds later. I could have drunk a whole cup of tapoy if someone had strained out the rice and lizards. Mr. Wright wanted to laugh at me and I could hardly hold myself in while he did his bit and it surely makes me smile now to think how we looked as we reeled around that room but it was serious business at the time and to have laughed would have won us the displeasure of the spectators.

We decided we had enough of both canao and tapoy and we asked for a pine knot and started back down the mountain.

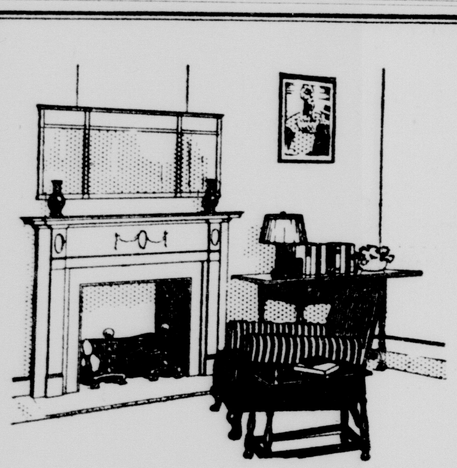

Movies.

There is one show house in San Fernando known as Smith's Cine, run by Smith a negro and ex-soldier of '98. It is on the second floor over his wholesale and retail liquor store and on the same floor with his hotel rooms. Smith is a man of "many works" as he runs the cine, one of the two hotels in town a liquor store and is a transportation contractor operating passenger and freight trucks all the way up and down Luzon. Well to come back to the cine, pictures are shown here once or twice a week but they are of such a poor quality that we rarely go. The only interest in them for us is in the titles which are given in Spanish and English, sometimes in Spanish alone. If both languages are used the Spanish is given first and the English is either flashed after the Spanish or is printed beneath the Spanish.

PEOPLE OVER 40

People over 40 have to be careful of their blood pressure. It's at this age, due to our abnormal living habits, that our blood pressure begins to slip up on us. And high blood pressure shortens life—may cut it off suddenly.

Modern living puts too great a pressure upon the vital organs, especially the liver. The liver becoming weak and sluggish fails to cleanse the blood of the poisons formed in food waste. The whole system then becomes toxic, with stomach, kidneys, heart and blood vessels affected.

The liver occasionally needs a little help, and there's nothing better for this, as physicians agree, than ox gall. Ox gall is a remarkable natural stimulant for the human liver, promoting its normal active functioning so essential to real health. Dioxol tablets are genuine ox gall in dainty and tasteless form, each tablet representing 10 drops of pure ox gall. To be sure of getting the genuine ox gall, be sure of getting Dioxol. They cost less than 2c each at good druggists, and a few bring a delightful change.

Free Test Take this ad to the druggist named below and he will give you a free sample of Dioxol tablets. Try them yourself. See the splendid, quick results. One trial of Dioxol and you will want a full package!

Cuticura Heals Water Blisters On Chest And Neck

"I broke out in little water blisters which, when they broke, spread all over my neck and chest. The breaking out itched and burned and caused me to scratch, and when my clothing touched it, it would nearly drive me wild. When I was where it was hot I could not stand it.

"I tried different remedies but they did not seem to relieve me. I was told to use Cuticura Soap and Ointment. The burning and itching started going out of my skin, and after I used two cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed." (Signed) Mrs. E. D. Haight, Box 104, Elsmere, N. Y. Oct. 2, 1927.

Make Cuticura Soap and Ointment your every-day toilet preparations and have a clear, sweet skin, soft, smooth hands, and a healthy scalp with good hair. Cuticura Talcum is unexcelled in purity.

Open Bids For Big Addition To Union High

Contract Will Likely Be Awarded Within Next Few Weeks

GEORGE W. LUSK IS LOWEST BIDDER

Eleven different contractors presented bids for the general contract of building a two-story addition to the Scotland Lane school, the bids being opened at a meeting of the school directors at the school on Wednesday evening, April 11.

Contract for the job was not awarded at the meeting last night, but the directors decided to consider several of the alternates and figure on the materials, etc., and then award the contract at a meeting of the board to be called some time soon.

The directors at their meeting last night thought that they would be able to finance the proposition at the figures given by the contractors and that they would be able to go ahead with the work of the new addition at an early date.

Lowest Bid.

George W. Lusk of New Castle had the lowest bid on the general contract, his basic bid being $50,500. The other bids and those making them are as follows: New Castle Lumber & Construction company, New Castle, $51,975; Mat Levi & Sons, New Castle, $55,883; Hoyland & Frasso, New Castle, $56,361; Parrish Bros. Co., Youngstown, O., $56,597; M. Carcaise & Son, Rochester, Pa., $59,488; L. F. Vaughn, New Castle, $61,283; S. M. Ruehle, Bessemer, Pa., $63,600; A. C. Lusk, New Castle, $64,100; A. Wishart & Sons Co., Sharon, Pa. $70,000; Keeland & Boss, $70,160.

There were two bids on the plumbing contract and also on the heating contract. R. T. Withers Sons company bid $3,694 on the plumbing and $8,730 on the heating. William M. Clark & Co. bid $3,964 on the plumbing and $8,793 on the heating.

On the electric wiring contract the Bartley Electric Co. bid $3,230 while the Marvin Electric Co. made a bid of $3,655.

The new addition is composed of two stories consisting of six class rooms and a combination auditorium and gymnasium with a stage and bleacher seats, toilet and locker-dressing rooms with showers for both boys an girls, an office, library and teachers' rest room with a steam heating system and a unit ventilating system.

Besides this addition of fireproof construction, which will match the old part of the building, the contract calls for the finishing of two class rooms on the second floor of the present building and the installing of two rooms for domestic science in the basement of the present building.

The addition will not only furnish an adequate equipment for the school children of the township but the directors plan it for a community center for the use of the surrounding community.

AVOID UGLY PIMPLES

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste", a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take nightly for a week. See how much better you feel and look. 15c, 30c, 60c.

DAMAGE SUIT AGAINST CITY OF NEW CASTLE

The case of Enrico Menichino against the City of New Castle for $2500 damages to plaintiff's property as a result of water washing over it from Swansea street is on trial before Judge Hildebrand in county court today. Minichino lives on Liberty street. He claims that there was a drain which took care of the water near Swansea street, but that it became clogged up, and that the city piled earth up at the foot of Swansea street, thus diverting water out of its natural channel and cross his property.

Damage Suit As Result Of Trucks Coming Together

Charles Quintiliano Claims Negligence On The Part Of Elenterio Lattavo

Charles Quintiliano has filed a suit at the prothonotary's office against Elenterio Lattavo to collect damages for a truck smashed in a collision on Croton avenue. Quintiliano claims that he was driving eastwardly on S. Croton avenue and had reached a point east of the intersection of Crawford avenue, where the street cars turn from a double to a single track.

As he reached the switch a street car slowed down to turn out on another track. There was a car parked on the north side of the street car and Lattavo was coming in a heavy truck behind. He was driving at from 25 to 30 miles per hour, and seeing that he could not pass the street car on the right side, swerved to the left, and seeing Quintiliano, tried to turn into an alley, but the rear end of his truck struck plaintiff's truck, doing considerable damage. Repairs to plaintiff's truck cost $104.93, and there was other expenses amounting to over $100. Plaintiff also asks $1000 for pain and suffering as a result of the accident.

Executive Board Of Neighborhood House Has Meeting

At the monthly meeting of the executive board of the Neighborhood House on Sciota street with the president, Mrs. T. W. Phillips presiding reports for the month of March were heard.

Miss Christine Butler, the worker in charge reported making fifty calls. The exchange of library books during the month were 1097. Donations of books were given by Miss Anna Aiken and Mrs. Frank Butz. The Girl Reserves under the direction of Mrs. John McIlrath gave a pleasing Easter Pageant. An Easter service was also held on Easter Sunday, directed by Mrs. W. C. Stuart.

Reports showed that all the classes conducted during the week are making excellent progress and a good interest taken by the boys and girls and the women attending.

Klan Trouble May Be Presented To State Officials

(International News Service)

PITTSBURGH, April 12.—Balked in their efforts to force the Ku Klux Klan into an accounting of its activities in Pennsylvania, the five banished Klansmen who are defendants in the organization's $500,000 damage suit here may take their fight to state authorities, Van A. Barrickman, their counsel said today.

"This fight is just beginning," Barrickman said. He said the ousted membership of the Klan will press its fight to bring about a thorough investigation of Klan activities in Pennsylvania and will lay evidence they were unable to present in federal court in the hands of state officials. Barrickman indicated he would attack the charter granted the Klan in this state.

Twenty-Six Ships On Route Chosen By Captain Koehl

Up Until Noon Today No Steamer Had Reported Sight Of Plane Bremen

(International News Service)

Twenty-six transatlantic passenger steamers line the patch which the silver gray German monoplane Bremen has taken in its projected flight from Baldonnel Field, near Dublin, to Mitchel Field, N. Y., but none of them up to shortly before noon had reported sighting the plane. Only a few of these liners, however, were close enough to the European coast to have sighted the Bremen so soon.

MAKES DISTURBANCE

John Cimperman, aged 16, last night entered the poolroom of Joe Dudovitch on West Long avenue. A son of the proprietor ordered him out, telling him that he was under age. Cimperman is alleged to have became angered and started to fight with the Dudovitch boy. Officers Thomas and Letera happened along and took the Cimperman boy into custody. He appeared before the mayor and was discharged.

Prince Of Wales Is Thrown Again In English Race

(International News Service)

LONDON, April 12.—The Prince of Wales suffered another acrobatic fall from his horse today, this being his 29th recorded time that he has been thrown. The prince was riding his favorite horse, De Gomme, in the West Norfolk point-to-point races at Nector when the accident took place. The prince turned a complete somersault in the air, but was not injured.

Reserve Officers Of District Meet

Twenty Officers Attend Meeting At Elk's Home Wednesday Evening

Monthly meeting of the Shenango Valley Chapter of Reserve Officers Association of the United States held Wednesday evening at the Elks Home was a success in every way. With 20 of the reserve officers of the district in attendance, Major L. E. Burnside, Eng. Res., of Sharon, Pa., and Capt. M. L. Craig of this city, gave very interesting talks along lines of interest to the assembled officers following the dinner.

At the business session held previous to the addresses Major C. E. Imbrie of Butler, the president presided. It was voted that a meeting should be held the first Wednesday night of May instead of discontinuing the meetings until fall.

It is planned that the May meeting shall be in the nature of a special membership affair and each present member is expected to interest and have present at this meeting one or more men eligible for membership and have them sign up for membership at that time.

After considerable discussion it was also decided that the mailing list should be revised after the May meeting to be more in keeping with the membership of the organization.

George Kuech, secretary of the organization, presented his resignation last night the same to be effective at once, owing to the fact that he is now employed in Pittsburgh and finds it impossible to attend meetings regularly.

Pat J. Dempsey was the unanimous choice of the members present as the successor of Mr. Kuech.

Major L. E. Burnside of Sharon, was then called upon and gave a very interesting talk on the part that Engineers play in the affairs of an army. He told how th e term engineer originated in the olden times and how the engineers in ancient times were the real fighters. He then explained the relationship of the engineers to the other units of the army and how the engineer must not only know his own business but also that of the branch of the army to which he may happen to be attached.

Captain M. L. Craig then presented an interesting blackboard illustrated talk on the organization of the army with respect to the source of supplies of all kinds, especially as relating to the transportation of ammunition from the source of supply or manufacture to the advance lines where it is needed. His discourse proved interesting and beneficial to the officers and he was called upon to explain a number of things at some length.

While his talk was in progress a band practicing in the Elks club played the Star Spangled Banner and the assembled officers arose and stood at attention until the band had ceased playing the national anthem.

Those present last night were Major C. E. Imbrie, Major George Dale, Lieutenant Claire Sowash, Lieutenant Walter Gold, Major L. E. Burnside, Lieutenant A. Smith, Lieutenant P. J. Dempsey, Lieutenant Carl Cleeland, Captain Frank Woods, Captain M. L. Craig, Lieutenant George Kuech, Captain W. F. Jackson, Lieutenant Floyd Perrine, Major Walter W. Golden, Lieutenant Frank S. Attinger, Lieutenant Paul Welsh, Captain R. K. Gregory and Lieutenant Denton Moon.

Don't Squeeze Blackheads —Dissolve Them

Squeezing out blackheads makes large, ugly pores. The safe and sane way to get rid of these blemishes is to dissolve them. Get two ounces of Calonite powder from your drug store, sprinkle a little on a hot, wet cloth, rub over the blackheads, and every one, big or little, will disappear at once.

Mussolini And King Emanuel Escape Death

Milan Reports Alleged Plot To Kill King Victor; Fourteen Killed By Bomb

(International News Service)

PARIS, April 12.—Alleged plots to assassinate King Victor Emanuel and Premier Mussolini of Italy, the former resulting in a bomb outrage in Milan, which cost the lives of 14 persons, were reported from Milan and Berne today.

A bomb was exploded in Place Julius Caesare, Milan, at 10 o'clock this morning just before the arrival of King Victor Emanuel to inaugurate a trade fair. Fourteen persons were killed and 40 were wounded.

At the same time a dispatch from Berne reported that a bomb was found upon the railway tracks near Como, Italy, just before a train carrying Premier Mussolini was due to pass.

CLAIMS IT WAS BENEFICIAL TO ENTIRE SYSTEM

Feels Like A Different Person After Taking Celebrated Ten Herbs

"Ten Herbs seemed to invigorate my whole system and made me feel like a different person," was the statement of Mrs. Elizabeth Capo, 95 Murray Avenue, Washington, Pa., to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington St., New Castle, where he is daily demonstrating this popular medicine. "Of all the medicines that I have ever taken, Ten Herbs gave me the greatest results," Mrs. Capo continued.

MRS. ELIZABETH CAPO

"Before taking your medicine, my entire system seemed to be rundown. I had no color in my cheeks, as I used to have, and my eyes were dull. I felt weak and lacked ambition—just dragged my feet around. My blood was bad, and I had no appetite. I was getting so poorly that I could hardly get my housework done, and knew that I would have to get help, or I would be 'laid up.'

"Although I had tried different medicines without being helped, I decided to try Ten Herbs, after reading in the papers that it was beneficial to weak, run-down people. I soon began to gain in strength and to have a better color in my cheeks. My appetite was improved, and I had more energy. After continuing the use of Ten Herbs awhile, I began to feel like myself again. I cannot begin to tell you how much I owe your medicine for the good health it gave me. Ten Herbs surely is fine for run-down people with bad blood, and I am glad to give it a public endorsement."

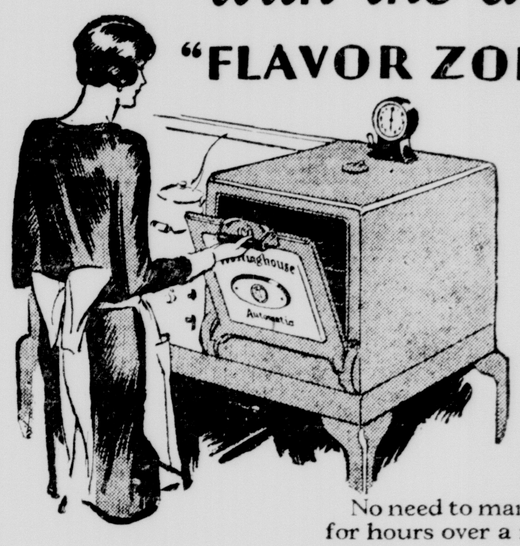

Not a day passes but what men and women of this section tell the Ten Herbs Man how this new herbal compound ended their stomach, liver or bowel trouble. It tones up the kidneys, and purifies and enriches the blood by cleansing the whole system. Ten Herbs seems to impart new life and vigor; brightens the eye, and improves the complexion.

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where he is daily meeting the public and explaining the merits of this medicine. Free sample given.

No need to manually labor and fuss for hours over a roast or oven dinner any more.

The Westinghouse FLAVOR ZONE oven browns and cooks *automatically* —without the least attention.

Just put your dinner—roast and vegetables—in the oven, make two simple adjustments, and then forget it. Don't go near the oven—don't touch the roast—until dinner time.

No other range, either fuel or electric, can perform first the browning and then the cooking operation under full automatic control. No other range can give you such complete freedom from the kitchen.

Ousted Klansmen Named Defendants In Damage Suit

Klan Counsel To Press Damage Suit For $500,000 Against Banished Members

(International News Service)

PITTSBURGH, April 12.—Victorious in their efforts to have the counter suit of five banished members of the Ku Klux Klan dismissed in federal court here, klan counsel today planned to press their suit for $500,000 damages against the ousted klansmen. The klan also seeks an injunction to restrain the defendants from interfering with its activities in Pennsylvania.

The banished klansmen, who introduced testimony purporting to show that the klan fostered a campaign of murder, rioting and terrorism, expected to wind up their defense by noon. Ralph E. Wolf of Pittsburgh, former klansman, will probably be the principal defense witness and is expected to tell of additional riots.

Judge W. H. S. Thomson was to rule on a motion by J. H. Connaughton, klan counsel, for a continuance to permit the organization to call several witnesses from Texas. Through these witnesses the klan hopes to refute previous testimony that klansmen burned seven or more persons to death in Texas.

The defense will press its demand that Hiram Evans, imperial wizard of the klan, be produced at the trial, it was anticipated. Action on the admissibility of the deposition of William J. Simmons, klan founder, also is pending. Simmons charged that Evans usurped klan powers and plotted to murder him.

OPERETTAS.

Second in the series of operettas for the season come the two which will be given next Tuesday night. The third and part of the fourth and fifth grades will present these numbers. "The Golden Whistle" is to be given by grades 3A and 3B. Grades 4A and 5A will present "What's the Matter With Sally?"

First on the evening's program the audience will be entertained with "The Golden Whistle." Beffo (Wilbur Summers) awaking after a nap in the woods one summer afternoon, sees before him the little old woman (Virginia Vrecano). After talking to him she gives him, on her departure the Golden Whistle. He soon finds that whenever he blows it all the fairy folk of the woods as well as birds, flowers, even butterflies come tramping in answer to his summons. These delightful companions and when the Golden Whistle is lost and stolen by the White Rabbit (Robert Davidson) they summon to Beffo's aid the Fairy Queen herself. Margaret Stebleton takes the part of the queen.

The Little Old Woman returning, the Fairy Queen releases her from the evil enchantment which had been over her and throwing off the long cloak she stands revealed a lovely young girl. The queen bids Beffo take Alcea by the hand and lead her among his friends. With much merriment others join in and form a gay line of march led by Beffo and Alcea.

"WHAT'S THE MATTER WITH SALLY?"

Sally a rich little girl who is badly spoiled has been left at an orphan asylum while her mother and father go on a trip. While living with the orphans Sally realizes that she is much happier if she is helping others. The part of Sally is taken by Catherine Bair; Teacher in the Orphanage, Dorothy Johnson; Sally's mother, Helen Pelto; matron or Orphanage, Rose Slapnachar; orphans, Peter, Frank Gerner; Prudence ,Violet Mandich; Betsy, Ada Winland; Agnes, Annie Seyak.

JUNIOR-SENIOR BANQUET.

Tomorow night the anual Junior-Senior banquet will be held in Bessemer high school auditorium. The class of '29 is expecting to banquet about 60 people including the Senior class, the high school faculty and themselves. Because this year's senior class is larger than usual and the juniors have a smaller class they are having to put forth a real effort to uphold the old tradition.

Miss McLaughlin is in charge of preparing the banquet. Mothers of the members of the class of '29 will help her.

EASTER PROGRAM.

One of the largest audiences which Bessemer auditorium ever held gathered last Sunday evening to witness the Easter program. Both the down stairs and the balcony were filled to their capacity.

VOLLEY BALL.

Since the closing of basketball season Bessemer high students have become interested in volley ball. A league has been organized among the various classes and several tournaments have been aranged. These meets are to be played off during the noon periods and after school.

Each class is divided into two teams .Of the outstanding players two are chosen from each team as captains. Stanish and Glassic fill the positions of captains for the senior teams and Macklin for the junior teams. Representing the captancies of the sophomore teams are Levinson and Plevnic. Carlson and Stanich serve as captains on the two freshmen teams and Valentine and Stanley are for the eighth grade. The seventh graders have chosen Benson and Percis for captains for their two teams.

As yet the girls have not chosen teams or captains but many are interested in trying the game.

TEACHERS BANQUET.

Monday evening the high school teachers of Lawrence county will meet for their annual banquet at the Elks club in New Castle.

ALUMNI HOME.

At least ten members of the Bessemer high school have been back in Bessemer for part of the Easter vacation.

Ralph Sepic was home from State College.

Louis Susany, from Allegheny.

William Steltzer from Allegheny.

Elton Ruehle from Thiel.

Earl Ruehle from W. and J.

Rupert Conners from Pitt.

Leonard Levinson from University of Pennsylvania.

Maurice Levinson who formerly went to Pitt is now staying at home to take care of his father's store.

Gladys Nord of the class of '26 was back in Bessemer for the Easter exercises Sunday evening.

Frank Chaney who is working in Cleveland was home for Easter.

The Diary of a New Yorker
by CLARK KINNAIRD

Exclusive Central Press Dispatch to New Castle News.

NEW YORK, April 12.—Variegated notes of a reporter covering the biggest beat in the world:

The peppiest and tastiest hotdogs in New York are obtainable at Joe's Place, "open all night," at Sixth avenue and 45th street.

The prettiest chorus girls are in the night club shows, rather than in musical comedies. Cafe girls used to get $25 a week and have to mix with male guests. Now they are hired for their looks, shapes and talent and need not meet customers. They average $60 a week in pay. Some of them also appear in stage shows, and have a total income of $150 a week.

The costliest wardrobe of any stage performer is that of Francis Renault. It is vauled at $75,000. Francis is a he—a female impersonator in shows.

Levine, Fifth avenue tailor who makes all the clothes for Jimmy Walker, the Beau Brummel of mayors, reports that despite his reputation for tardiness, Jimmy is never late for fitting.

A table steward on the Leviathan was a commander of a German submarine during the World war. Wounds so shattered his nerves that he is no longer able to serve as officer, but he doggedly follows the sea in the only job he can fill.

Hotels are flooded with offers from college boy jazz musicians to play during the summer for lodging and meals.

Stock Exchange traders paused amid the turmoil of a 3,000,000-share market to cheer the appearance in the visitors' gallery of the first straw hat of the season. It was worn by James Rolph, mayor of San Francisco.

The chauffeur of a dweller in East 54th street, in the block in which the Chauncey Depew residence is situated, whiles away the time he waits in front of the house practicing on a muted cornet.

New York gunmen carry their "rods" in holsters strapped under the left shoulder. (If left-handed, under the right shoulder.)

A well dressed beggar who works the theatre district at midnight, bangs on the pavement with his cane and bespeaks himself commandingly, "Come 'n, people, come 'n!"

The pedestrian's path over Brooklyn bridge is a lovers' lane after dark.

Speakeasy operators are keeping step with modern high-pressure sales methods. They maintain card index files of their customers, keep a record of visits, etc. When a customer doesn't come around for some time, he receives a note something like the one I got from a "club" in West 48th street:

"We want to thank you for the business you have given us in the past. Please understand that any future favors will be very much appreciated.

"We have just put in a large stock of splendid merchandise that we know will meet with your approval."

Some of the speakeasies go so far as to plague men and women for patronage daily by telephone.

CLARE SWISHER

GEORGE DICKSON

(Special To The News)

NEW WILMINGTON, Pa., April 12.—With the appearance of this week's issue of the Westminster Holcad on Tuesday, the work of Clare Swisher of Cherry street, New Castle, the editor, and of George Dickson, East Palestine, O., the business manager, comes to an end.

Both young men are members of the senior class at Westminster. Swisher, who holds membership in Tau Gamma Delta honorary journalism fraternity by virtue of a varied journalism career, has been feature editor of the yearbook, a contributor to the humorous magazine, and reporter, associate editor, and editor of the weekly paper.

He is connected with a large number of activities at the United Presbyterian school, most important of which include class and varsity debate, men's glee club, dramatic club, college orchestra, inter-fraternity council, and the office of treasurer of the lecture course. He is a member of Delta Phi Sigma fraternity.

Dickson, a member of Theta Upsilon Omega fraternity, is also a member of Tau Gamma Delta journalism fraternity. He is a member of the men's glee club, has played in inter-class athletics, and is a member of the string sextet which accompanies the glee club on trips. Dickson is steward at the Theta Upsilon Omega house.

DANDRUFF
Soon Destroys the Hair

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. Four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Annual Meeting Of Third U. P. Church

Reports Show That 181 New Members Are Received During Past Year

New members to the number of 181 were received during the past year in the Third United Presbyterian church of this city according to reports at the annual congregational meeting Wednesday evening at the close of the preparatory service.

A budget of $34,000 was received including all amounts from the various organizations for current expenses, benevolences and building fund.

D. A. Palmer and Charles Caruthers were re-elected trustees for a term of years. Bernard Hook was re-elected chairman of the congregation and Mrs. P. D. Gibson, secretary.

Excellent reports were given by the many organizations of the church of the work accomplished during the year which has just closed.

JUNKERS PLANE HEADS WESTWARD ACROSS ATLANTIC

(Continued From Page One)

came on the field smiling broadly and showing little nervousness. Von Huenefeld was happy as a youngster and pointed to the sun breaking through the clouds, meanwhile slapping Koehl on the back.

The fliers will take the northern "great circle" route usually used by transatlantic fliers. They hope to arrive at Mitchel Field, N. Y., within 38 or 40 hours.

"We will use the northern route," Captain Koehl announced as he donned his flying clothes. "We do not fear slete so much now as weather conditions are perfect and our plane is completely paraffined. I think we will get to Mitchel Field within 38 or 40 hours."

Arrive Tomorrow Afternoon

If they maintain the schedule they have set for themselves the fliers should pass Newfoundland early tomorrow morning and arrive at Mitchel Field some time tomorrow afternoon.

The fliers were awakened at four o'clock this morning. After partaking of a hearty breakfast, father O'Ariargan, chaplain at the airdrome, gave them holy communion.

In the gray light of the dawn, the Bremen presented a ghostly appearance. Passing automobiles throwing their headlights on the plane gave the impression that it was coated with frost.

Koehl was the first of the fliers to reach the plane. He tuned it up and pronounced it perfect. He carried a German flag when he took his seat in the cockpit.

Fitzmaurice, carrying an Irish flag, and Von Huenefeld followed in order.

The Bremen was accompanied to the coast by a small Napier plane carrying Captain Carrol and Lieutenant Russel of the Irish Free State air force.

Usual Sandwiches

The fliers' food supply consisted of many sandwiches, and strong coffee and beef tea in thermos flasks.

Officials at the field declared that on no previous flight attempt from Baldonnel had conditions been more perfect.

The sun shone gloriously overhead as the machine disappeared from view—an omen auguring success, watchers at the field declared.

There was a moment of suspense as the plane was enveloped in a cloud of black smoke just before it took to the air near the end of the specially built runway.

The German mechanics who had groomed the plane feared something had gone wrong and ran after it. The throng on the field was greatly relieved when the machine finally left the ground and disappeared over the airdrome swinging in a westerly direction towards Galway.

While the plane's engine roared steadily, the Irish tri-color broke out alongside the German flag as the plane disappeared.

Koehl made his decision to take the northern route because of reports of bad weather centering to the southward. He stated that he expected the plane would average ninety miles an hour on the flight.

Fitzmaurice Elated

Commandant Fitzmaurice was obviously elated. He made the following statement exclusively to the International News Service staff correspondent on the field.

"As chief of the Irish Free State Air force, I am participating in this flight to further Irish aviation and aviation in general. Ireland's geographical position is all-important to the world as far as future aviation is concerned. I hope to be in America within a few hours and meet old friends there.

"We have a fine machine and will reach America safely with decent luck."

Fitzmaurice's wife was at the field to bid him goodbye. She appeared to be in the best of spirits.

Among those who witnessed the take-off were Minister of Defense Fitzgerald and the German consul-general.

Cosgrave Bids Farewell

President Cosgrave arrived at the airdrome at 4:30 a. m. and was the last to bid the fliers goodbye and good luck, the president led the cheering as the machine took to the air.

Koehl was brimming over with confidence before he entered the plane.

"I am certain that with ordinary luck and a continuance of favorable weather conditions, we will be the first to accomplish the East to West flight over the Atlantic," he told the International News Service correspondent.

The Bremen, a low-winged, all-metal, single-motored monoplane, is a standard Junkers model. It has a wing spread of 58 feet, three inches and an overall length of 34 feet, five inches. It stands nine feet, six inches high.

It is capable of a top speed of 123 miles an hour. Its cruising speed is about 97 miles an hour. Adverse flying conditions will, of course, reduce this speed.

The plane is carrying more than 600 gallons of gasoline, sufficient to keep it aloft about 46 hours. The fuel being used in a specially prepared benzol-charge petrol of high volatility.

The plane's motor is said to be capable of developing 310 horsepower. It is the same type of motor as that used by the German aviators who set the endurance record of fifty-two hours and twenty three minutes which was recently broken by Stinson and Haldeman in the flight over Jacsonville, Fla.

The plane carries no radio equipment, hence it will not be heard from directly.

Fitzmaurice will spell Koehl every few hours on the flight. Von Huenefeld will man the gas pumps and keep a log on the flight.

Airship Sighted

LONDON, April 12.—Civil guards on Aran Island, at the entrance to the Bay of Galway, sighted the Bremen at 7:25 o'clock according to messages from Dublin this afternoon. The plane was about 2,000 feet up and was barely discernible owing to thick mist. Aran Island is about 125 miles from Dublin.

LONDON, April 12.—The British Air Ministry today advised International News service that the three fliers now essaying a westward trans-Atlantic flight will meet slight headwinds during the early stages of their hop.

Westerly winds of medium proportions prevail over the Atlantic today, the Air Ministry stated."

ST. JOHNS, Newfoundland, April 12.—Although good flying weather prevailed here during the morning a gale of easterly wind and rain is forecast. There was brilliant sunshine and a mild southerly wind this morning.

HALIFAX, N. S., April 12.—Poor weather conditions await the three fliers who are now attempting a westward trans-Atlantic flight from Baldonnel airdrome to America in their Junkers monoplane bremen. Strong southerly winds were blowing off the coast of Nova Scotia and Newfoundland this morning. A heavy rain was falling and the temperature was low.

Weather forecasts further indicated that the winds probably would increase to gale proportions and the rain would continue.

It is feared that the combination of rain and low temperatures will cause the formation of sleet on the wings of the plane.

BERLIN, April 12.—Behind the daring flight of Captain Koehl and his companions lies a dramatic story of keen rivalry for future trans-Atlantic air traffic between the two foremost aviation organizations in Germany, it was learned today.

On one side there is the Lufthansa Commercial Flying company, which operates by extensive network of airplanes all over Germany and is subsidized by the German government. On the other, there is the Junkers Aircraft Manufacturing company, which manufactures most of Germany's airplanes.

Captain Koehl's attempt today to blaze a westward trail across the Atlantic by air, it was authoritatively learned, is backed by the Junkers and the German shipping interests, particularly the North German Lloyd.

Among the unemployed at present are the party wheel horses whose specialty consists in pointing with pride.

If he is known as a mighty fine fellow and everybody loves him he hasn't a Chinaman's chance for the nomination.

When Women Get "That Kruschen Feeling"

All Over The City Women Are Adopting The Kruschen Habit

It Means Healthy Life And Appealing Vivacity

The six vitalizing salts that Nature demands if vigorous health is to be yours are all found in Kruschen Salts.

Since these health building salts have come to this city hundreds of women, eager for something that is sure to bring to them that spirited vivacity that lifts them out of the commonplace have kept our pharmacists busy supplying the demand.

Refute Testimony Against Klan In Pittsburgh Court

Ku Klux Klan Opens Case Against Five Banished Members By Refuting Testimony

DENY KLANSMEN PARADED ARMED

(International News Service)

PITTSBURGH, April 12.—The Ku Klux Klan opened its case against five banished members of the order from whom it seeks $500,000 damages in Federal court shortly before noon today, after the defense, balked at lamost every turn, succeeded in reading into the evidence parts of the sensational deposition of D. C. Stephenson, former Indiana Klan leader.

Judge W. H. S. Thomson overruled a motion by J. H. Connaughton that the testimony of klan terrorism read into the records the first three days of the trial be thrown out. The judge previously dismissed the countersuit of the banished members in which the latter sought to throw the Klan into receivership in this state.

Attacking testimony given by witnesses for the defense that Klansmen at the Carnegie and other Klan demonstrations had been armed, the plaintiff counsel introduced witnesses in an effort to show that not only had the Klansmen been unarmed but that they had not fought back against their attackers.

W. H. Mitchell, Swissvale, testified that he was present at a demonstration given at Winkinsburg. Judge Thomson called a halt to his testimony when he was asked concerning statements said to have been made by Sam. D. Rich, Grand Dragon of Pennsylvania, before the Carnegie riot.

Marchers Not Armed

Instructions were passed through the crowd gathered for the parade at Carnegie that all firearms must be left at the field, Lawrence C. Fink, New Kensington testified. He said none of the marchers in the parade were armed nor did they attempt to defend themselves when they were attacked by spectators. All shots fired came from in front of the marchers, he asserted.

Two or three Klavaliers or Klan guards were armed, Leroy Smeltzer, New Kensington, a member of Klan No. 387, admitted when questioned. He denied, however that there was any demonstration tended to intimidate anti-Klan forces and that the marchers were armed.

While the body of Thomas A. Abbott was carried away from the scene of the Carnegie riot, the marchers were singing "Onward Christian Soldiers," John Ogle, New Kensington, testified. He also asserted that a few guards were armed but that none of the Klansmen carried clubs or guns.

Substantially the same testimony was given by Ray Bauser, New Kensington and David Slaughter, Wilkinsburg. Women on both sides of the marchers threw stones and bottles into their ranks, they said, but were not attacked by the marchers.

Defense attorney Van D. Barrickman, in his cross examination of each witness sought to show that there had been murder riot and bloodshep at the demonstration and that the marches were masked.

Statements made by a defense witness that a fiery cross was burned before a catholic church at Kittanning, were denied by Willis W. Hall, Johnstown, former Klan lecturer.

Here again, he testified, Klansmen were unarmed. Defense attorney J. H. Connaughton attempted to draw from him the substance of speeches regarding law and order made before Klan meetings but defense objections were sustained.

A fiery cross was burned and bombs were set off, the witness admitted under cross examination, but these were as a matter of ceremony at the assembly field and not in connection with any efforts at intimidation.

Eight Suspects In Attack Upon Woman Are Under Arrest

(International News Service)

VANDERGRIFT, Pa., April 12.—Eight suspects were under arrest today in the investigation of the attack made yesterday on Mrs. Merle O'Connor, 26, an invalid.

Mrs. O'Connor, who is in critical condition, told police two strangers entered her home, stole two rings from her fingers and after binding her in a sheet and gagging her, set fire to her clothing.

Smoke attracted neighbors before the flames gained much headway although Mrs. O'Connor was burned about the head.

Paper Plant Is Damaged By Fire

WILKES-BARRE, Pa., April 12.—Fire today destroyed the plant of the Exeter Paper Corporation along the Sullivan Trail near here, resulting in a loss estimated at $100,000. Cause of the blaze has not been determined.

As the flames ate away the supports machinery fell throught three floors. The menace of falling walls halted traffic over the Sullivan Trial. Firemen from Pittston and surrounding towns were handicapped in fighting the blaze by lack of water.

Three Daring Airmen "Gamble With Death" In Atlantic Flight

Belief Prevails That Captain Koehl Will Pilot Bremen Safely Over Ocean

Westward Flights To Date Have Claimed Five Men And Two Women

By JAMES L. KILGALLEN
International News Service Staff Correspondent

NEW YORK, April 12.—Another "gamble with death"—a westward flight across the Atlantic—is on, this time two Germans and an Irishman taking the "long chance" that already has cost the lives of five men and two women.

Three previous attempts were made to span the ocean, from Europe to America, and all of them ended in tragic failure.

Yet there is a strong belief in aviation circles here that the daring flight of the German plane Bremen, with Captain Hermann Koehl, Baron Ehrenfried Huenefeld and Colonel James J. Fitzmaurice aboard, will be successful. This belief is predicated on the fact that the most careful advance preparations were made and that the three men did not hop off until weather conditions seemed to be satisfactory in every respect.

If Koehl, Huenefeld and Fitzmaurice, who hopped off from Baldonnel Field, near Dublin, at 5:38 this morning (12:38 New York time) fly the 3,000 miles to Mitchel Field, at 90 to 100 miles an hour they may arrive between 7 a. m., and noon on Friday (New York Time), probably more nearly the latter time.

Conditions Fair.

Weather conditions were reported to be excellent as far as mid-Atlantic but what the elements have in store for the flyers thereafter is a matter of conjecture. A light rain and variable winds prevailed in this region this morning. Advices from St. Johns, Newfoundland, were to the effect that the weather was fine this forenoon but that an easterly gale and a heavy rain is forecast for tonight. The flyers are taking the northerly route which would take them across Newfoundland on their way to Mitchel Field.

The previous attempts that failed were:

1.—Captain Charles Nungessor and Major Francois Coli. They hopped off in the White Bird on May 8, 1927, in a Paris-to-New York flight.

2.—Princess Lowenstein-Wertheim, Captain Leslie Hamilton and Frederick F. Minchin. They took off in the St. Raphael on August 8, 1927 in an attempt to fly from Upavon, England to Ottawa, Ontario.

3.—Honorable Elsie Mackay and Captain Walter R. G. Hinchcliffe. They hopped off in the endeavor on March 13, 1928 in an attempted flight from Croydon airdrome, England to New York or Philadelphia.

All thre planes carying these intrepid adventurers vanished after they had pased out to sea.

Ten brave fliers lost their lives in addition in attempting on three occasions easterly flights across the Atlantic. They were:

1.—Philip Payne, Lloyd Bertaud and John D. Hill. They hopped off in Old Glory from Old Orchard, Maine for Rome on September 6, 1927.

2. Captain Terry Tully and Lieut. James Medcalf, Canadians, who took off from Harbor Grace, Newfoundland, for Croydon, England, on Sept. 7, 1927.

3. Mrs. Frances Grayson and three companions who hopped off from Roosevelt field for Harbor Grace, Newfoundland, on the first leg of a flight to Croydon, England. They left New York on December 23, 1927.

The Atlantic has been spanned in an easterly direction five times. Three planes, all manned by Americans, have accomplished the feat, Colonel Charles A. Lindbergh blazing the way in the Spirit of St. Louis, from New York to Paris, starting May 20, 1927. Two British and two American flyers flew the North Atlantic from Newfoundland to Ireland and England.

Clarence D. Chamberlin and Charles A. Levine flew from New York to Germany; Commander Richard E. Byrd and three companions, Bert Acosta, Lieut. G. O. Noville and Bernt Balchen, flew from New York to France; William S. Brock and Edward F. Schlee negotiated the journey from Newfoundland to England and Captain John Alcock and Lieut. Arthur W. Brown winged their way from Newfoundland to Ireland.

Still college professors would have as much news value as Babe Ruth and Dempsey if they were as scarce.

Claim Against Levine For $500,000 Is Close To Settlement, Report

Government May Agree To Settle Claim Against Charles S. Levine For $150,000

Surplus War Material Contract Involves Transatlantic Flier In Tangle

(International News Service)

WASHINGTON, April 12.—Settlement of the government's claim of $500,000 against Charles E. Levine, trans-Atlantic flyers and aircraft manufacturer, for $150,000 virtually has been arranged, it was learned today.

Levine's check for $150,000 is in the hands of the department of justice, but has not as yet been finally accepted. Both the government and Levine's attorneys have agreed on the amount but some legal details of the contract, which must be signed, have not been worked out.

Will Reach Settlement.

Officials said that as the differences are minor the controversy probably would be adjusted and a final settlement reached within a short time.

The claim against Levine arose from a surplus war material contract. The question was raised as to whether the government or Levine should pay certain freight charges, and as to the use to which the materials were put by the purchaser.

About the time Clarence Chamberlin, with Levine as a passenger, prepared to hop off for Europe, the department of justice threatened to bring suit against Levine in the federal courts. Action was postponed, however, after the successful flight to Germany, and the government agreed to resume negotiations looking to a compromise after Levine's return.

As a result of his differences with the government Levine lost several air mail contracts. Although he had submitted low bids the postoffice department declined to award the contracts, or to consider his bids until the government's claim was settled.

Oil Witnesses Reveal Fall In "Shut-Out" Act

Oil Men Take Witness Stand And Relate Efforts To Lease Teapot Dome

SINCLAIR HAD INSIDE TRACK

Show Fall Talked Of Leasing Oil Reserve After Sinclair Had Signed Papers

By GEORGE E. DURNO
International News Service Staff Correspondent

WASHINGTON, April 12—Evidence purporting to show that ex-Secretary of the Interior Albert B. Fall made a "shut-out" proposition of leasing the Teapot Dome Naval Oil Reserve to Harry F. Sinclair, was introduced by the government today at Sinclair's criminal conspiracy trial.

Amos L. Beaty, former president of the Texas company, was put on the stand by the government. He said that in March, 1922, a month before the Sinclair lease was signed, he went to Fall with an offer for the naval reserve.

"Fall told me," Beaty testified, "that he had an offer from Sinclair that was satisfactory."

The Texas company's capitalization, Beatty said, was $164,500,000.

Sinclair Given Preference

Beatty said Fall had told him he would give preference to the company that acquired title to certain placer mining claims then existant on the Dome. Sinclair already had acquired these titles and turned the quit-claims over to the government. Beatty learned of the Sinclair lease a week after it was signed.

Under cross-examination, Beatty admitted the Texas company would not have considered a lease embodying construction of a 1,000 mile pipe line and seaboard storage tanks for the navy such as Sinclair signed.

Another oil man who feared similarly followed Beatty on the stand. He was Birch Helms, of the Texas-Pacific Oil company.

Helms made the rounds of Washington in the spring of 1922 seeking a lease on Teapot Dome, he said.

"I was referred to Secretary Fall," Helms declared. "I saw him about the middle of April. He told me he would be glad to consider a proposition."

Sinclair had actually signed a lease a week before this, on April 7.

Wires Protest.

Helms then returned to Fort Worth to confer with his company and prepare a bid. From the papers, however, he learned of the Sinclair lease. This was April 19 and he promptly wired not only Fall, but also President Harding in protest against he discrimination.

Other telegrams went to Attorney General Daugherty, Secretary of Commerce Hoover and Secretary of War Weeks. Helms was demanding an interview with Harding.

Daugherty failed to answer; Weeks wired that for "good reasons" he couldn't do anything; Hoover replied he knew nothing about the matter, and George Christian, secretary to the president, wired that an appointment with Mr. Harding was impossible.

Fall answered, saying merely that "Teapot Dome closed; Salt Creek royalties still open."

May Fly Our Way

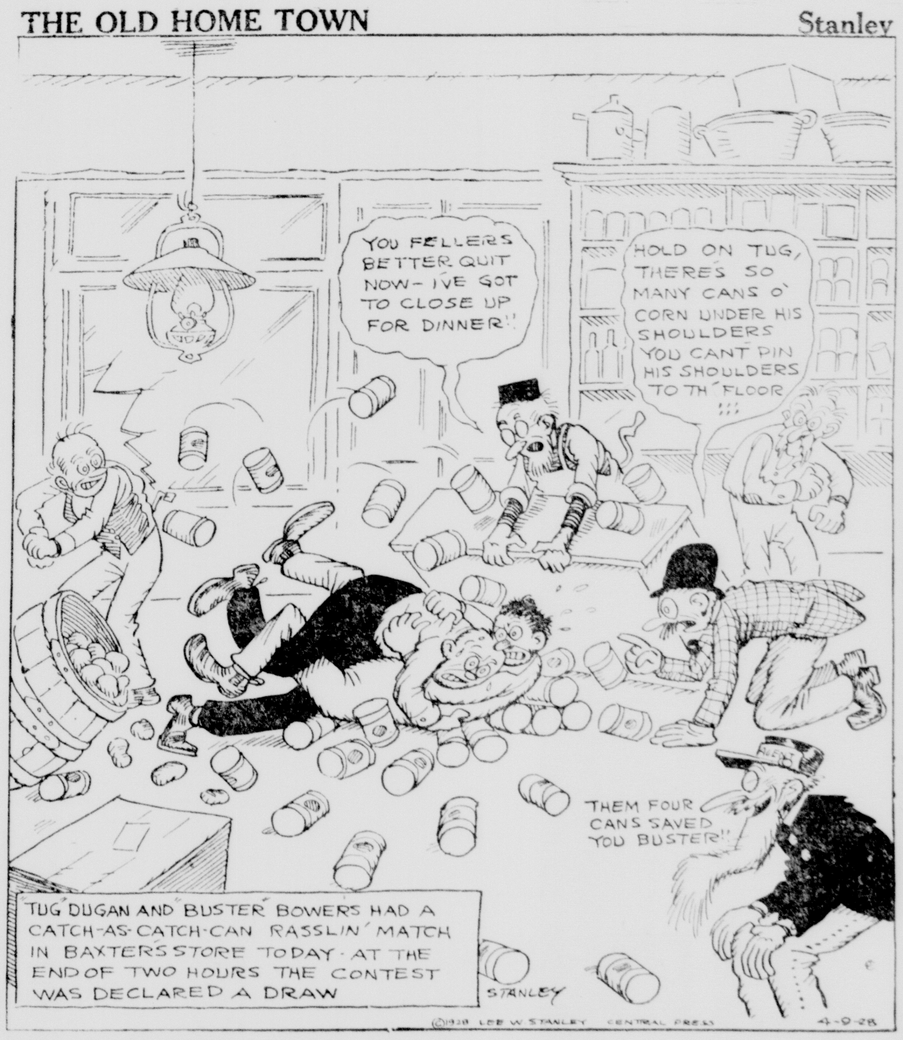

M. De Droyat, French flier, is reported preparing for a trans-Atlantic flight in return for Colonel Lindbergh's visit to Paris. De Droyat and Lindbergh became good friends while the latter was abroad.

MURDER OF SCHOOL TEACHER STIRS HISTORIC REGION

Historic old towns of Massachusetts, Concord and Framingham, have been stirred by the murder of Miss Margaret Stewart, 27, a teacher in a school for the deaf at Framingham, and the holding without bail, of Hinman Knowlton, 34, Framingham businessman, and son of a selectman. The body of Miss Stewart, who was to become a mother, was found beside the state highway near Concord, shown below. Knowlton is shown to the right. Above, is his car, which police allege he had washed with chloride of lime on the morning after the killing.

THE OLD HOME TOWN — Stanley

"I am so happy

that the last pimple is gone—"

WITHOUT this handicap, there returns the very natural confidence, joy and cherished pride of possessing a clear skin.

Men and women both justly covet admiration, and you can expect such satisfaction only if you are happy in a clear, unblemished skin.

The sure way to reach this state is through the blood.

Red blood cells are Nature's elements for building and sustaining the body.

Without plenty of rich, red blood, there can be no strong, sturdy, powerful men, or beautiful, healthy women.

You know a clear skin comes from within. Correct the cause—through the blood—and pimples, boils, eczema and that sallow complexion will disappear.

Thousands have regained their strength and charm by taking a few bottles of S.S.S.—Nature's own tonic for restoring the appetite—building strength—and clearing the body of so-called skin troubles.

All drug stores sell S.S.S. in two sizes. Get the larger size. It is more economical.

College Association Installs New Officers

MARY SOWERBY.

CORA WILLIAMS.

LOIS WAGONER.

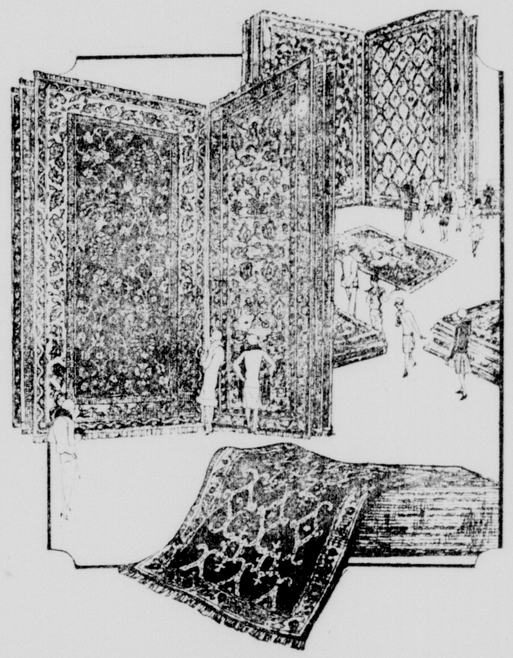

NEW WILMINGTON, Pa., April 12.—Annual installation services for the Westminster college Y. W. C. A. were held in the United Presbyterian church last night at 6:30 at which time Miss Mary Sowerby of Cumberland, Md., was made president; Helene Winters, Coraopolis, vice president; Lois Wagoner, Sharon, secretary and Cora Williams, Cresson, treasurer.

The customary candle light service was observed and added much to the impressiveness of the meeting. A number of solos by Ruth Lewis of New Castle, Sally Hemple of Dormont, Edith Round of New Castle and Agnes Keach of Akron, O., added much to the installation.

Those whose terms of office have just expired were in charge of the service. They include Evelyn Winger, New Castle, president; Helen Hastings, Bradford, secretary; and Helene Winters Coraopolis, treasurer.

Miss Sowerby, the new president is a member of Chi Omega sorority; Miss Winters is a member of Sigma Kappa; Miss Wagoner is a member of Chi Omega and Miss Williams is a member of Phi Delta Chi.

In all probability the new cabinet of the organization will be appointed some time next week.

Accident Victims Remain About Same

Condition of Emerson Goodhart and Claire McAuley, victims of the motorcycle accident at the concrete bridge at Willow Grove on Tuesday night, was today reported as remaining about the same. The former who is in the New Castle hospital, recovered consciousness during the night, but his condition still remains quite serious owing to his internal injuries. The latter is confined to his home and bed and he has not shown any great marked improvement since yesterday. He does not remember a thing about the accident.

SLIGHT ACCIDENT

Mrs. Nellie DeGarmo of 1012 Dewey avenue, reported Wednesday that she was enroute North on the P. & L. E. property near Produce street, when a car bearing Pennsylvania license 437-739 going west on Produce street collided with her machine near the P. & L. E. station.

"I know the secret of whiter clothes

and there's no hard rubbing or boiling!"

says Mrs. James Love, 307 Pearl St.

"WHEN I bought my washer the man who demonstrated the machine suggested that I use Rinso in it," says this woman, one of the thousands in this vicinity who use Rinso.

"It certainly is *the* soap for washing machines. Why, the clothes turn out so white that, in spite of the hard water here, I never have to do the least bit of hard rubbing nor use anything else with Rinso. Even boiling isn't necessary. Yet I never saw such white clothes!

"I use Rinso for everything now. It's great for dishwashing—dissolves the grease in a jiffy. It isn't gritty, either. Saves the cost of a water softener, besides."

It's the *suds* that make Rinso different! Even in hardest water, creamy lasting suds that loosen dirt and stains. *Safely!* That's why the makers of 32 leading washers urge women to use this hard-water soap. Marvelous for tub washing, too. Soaks clothes whitest ever, without scrubbing. Saves clothes—hands, too.

Get the BIG package from your grocer today. For economy and best results follow the easy directions on the package.

Maryland Farmer Victim Of Flames, Thwarts Firemen

(International News Service)

ELLICOTT CITY, Md., April 12.—Fedora Boski, Simpsonville, farmer, Wednesday was burned to death in his farm home, to which he fled after firing a fusilade of shots at firemen.

Boski, sitting at a second floor window, when firemen arrived emptied his pistol and then rushed downstairs to the porch where he stood guard with a knife. The firemen turned the hose on him. Boski ran inside. A few minutes later, the roof caved in. Boski was burned to death.

Police said Boski, beside applying the torch to his own home, set fire to the house of Wilton Parlett, next door. Damage at Parlett's farm was estimated at $25,000. Prize livestock were burned to death.

START EVICTING MINER'S FAMILIES

(International News Service)

PITTSBURGH, April 12.—Eviction of striking miners' families, variously estimated at from 19 to 106 in number, was to be begun today at Westland and Midland mines of the Pittsburgh Coal Company.

Ninety families will be evicted, P. T. Fagan, president of district No. 5, United Mine Workers said. C. E. Lesher, executive vice president of the company, said, however, that only 19 families were to be evicted, while a field organizer of the union placed the number at 106.

Provision for housing the families has been made, the union announced. Food and clothing also is to be provided.

Little Green Capsules Stop Rheumatic Agony

Prove It In 5 Days

There's nothing in the world that brings such quick and complete relief from the pain and misery that makes life almost unbearable as those tiny green capsules known from coast to coast as Allenrhu Number 2.

More than one man and woman whom horrible rheumatism has been carrying down to helplessness—suffering the torture of the damned can testify to this.

All you have to do is to take one tiny capsule each hour for the first ten hours the next day one every two hours for 14 hours then take as directed.

Substitutes and imitations may be offered you but remember it's "the little green Capsule" that is turning the trick and bringing joy to thousands of Rheumatic sufferers, so insist on Allenrhu No. 2.

Citizens To Select Slogan For Drive Here

Executive Committee Enlarged At Meeting Wednesday Evening In Chamber Rooms

All May Participate In Selecting Slogan For Drive And Compete For Prize

ELLWOOD CITY, April 12.—At an executive meeting of the officials of the Community Chest drive, which was conducted Wednesday evening in the Chamber of Commerce office, it was decided to make the selection of a slogan for the drive a matter for the town people to decide and that anyone may submit a slogan, under the following provisos:

First, the slogan must contain some element of civic pride; second, it must indicate successful previous drives; third, the word "chest" must be used, fourth, the word heart may be used, but not necessarily; and fifth, the slogan must not contain more than eight words. The members of the executive committee comprising J. J. McLaughlin, W. H. Braley, C. P. Cloak, H. N. Wasser and C. M. Adams will act as judges. The submitted manuscripts must be written on one side of the paper only, and must be in the chamber office not later than Monday, April 16. The schools are particularly interested and will take an active part in the selection of a super-slogan for Ellwood City.

At last night's meeting the executive committee was enlarged to include C. P. Cloak and H. N. Wasser, who were active in the drive for 1927, and C. M. Adams. The drive will take place the week of May 21 and the budget has been fixed at $41,450 which is $10,000 under last year's quota. This money will be raised to support the Ellwood hospital, Community Service league and the Boy and Girl Scout associations.

Two Hundred Shelby Employes At Dinner Party For Winners

Champion Team Members Presented With Trophies At Banquet At Church

ELLWOOD CITY, April 12.—Two hundred basketball man employes of the office department of the National Tube company attended a bridge-dinner party which was given Wednesday evening in honor of the Office basketball team which won the championship of the mill for 1928.

A feature of the banquet was the presentation of athletic trophies to each member of the team by Robert Forbes. The tables were set with spring flowers and team colors and the delicious menu was served by the ladies of the Trinity Lutheran church in the church dining room.

W. R. Johnston presided as toastmaster of the banquet and short talks were given by J. W. Offutt and Wayne Baird, manager of the team. Joe Latiano captain of the team acted as spokesman for the team and presented Mr. Baird with a handsome gift as a token of appreciation for his efforts during the past basketball season on the Shelby floor.

At the conclusion of the menu the party adjourned to the club house for bridge and five hundred. Those winning high score honors for bridge were Mrs. Baer, Mrs. Robert Forbes, Ernest Reinheimer and Everett Martin. High score winners for five hundred were Mrs. Luman, Mrs. Earl McCandless, Theodore Hayden and Joe Hirocki.

At the conclusion of the games an informal program of dancing was enjoyed concluding one of the most successful mill parties ever given.

Honor guests were Manager Wayne Baird, Captain Joe Latiano and team members, Joe Reilly, Phil Blandine, F. E. Elder, Earl McCandless, Bob McKinney, Earl Long, James Laughlin, Rudolph Kilmer, William Latiano and Clair Long.

Pennington And Doran Now Face Court Contempt

High Prohibition Officials Face Hearings April 20 For Contempt

(International News Service)

PITTSBURGH, April 12.—Prohibition Administrator John D. Pennington and James M. Doran, federal commissioner of prohibition, today faced hearings April 20 on charges of contempt of court, following a decision handed down in United States court by Judge R. M. Gibson.

The two prohibition officers were ordered to show cause why they should not be held in contempt of court and imprisoned for refusing to abide by a ruling of Judge W. H. S. Thompson ordering the liquor sales permit of Peter G. Walter, druggist, reinstated.

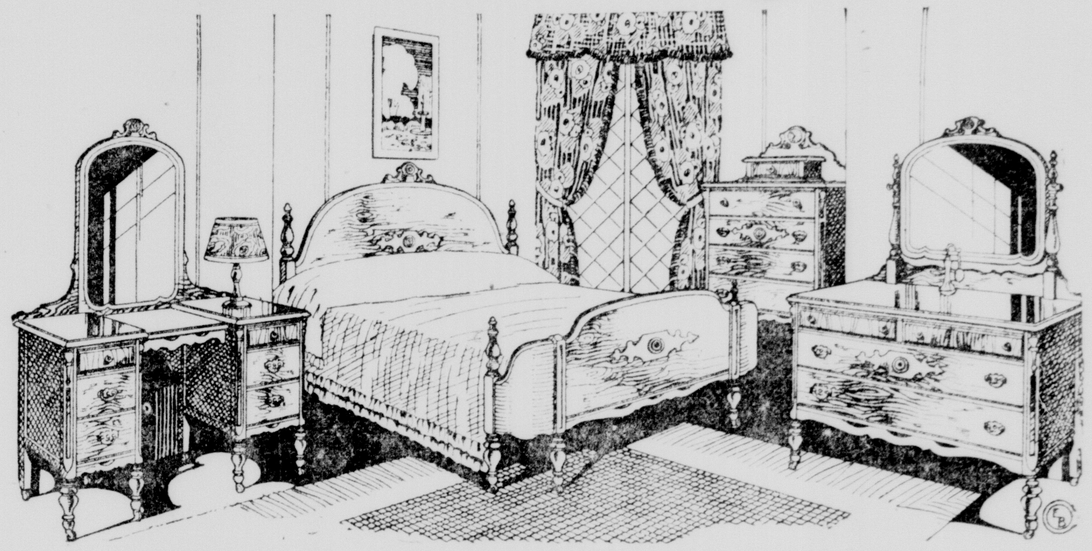

Walter in his petition alleges that Pennington refused to restore his permit after having been ordered to do so. The permit was revoked after it had been charged that Walter sold more than one pint of whiskey to a patient within ten days, according to the petition.

Mercedes Gelitz, London typist says she swam the Straits of Gibraltar. Asked to describe her swimming she might say she used the short hand stroke.

Indigestion 25 Yrs. —Wants to Fight

"I had indigestion for 25 years. Nothing helped me like Adlerika did. I feel so good now that I think I could lick Dempsey."—John McGuire.

The simple mixture of buckthorn bark, glycerine, saline, etc., (known as Adlerika), has a most surprising DOUBLE action. First, it acts on BOTH upper and lower bowel (most medicines act on lower bowel only) and removes foul matter that often poisoned the system for months. Second, Adlerika clears all GAS and sourness from stomach and bowels, bringing INSTANT relief from stomach trouble. And in addition, Adlerika removes metabolic poisons which cause neuritis, rheumatism, etc.

Dr. H. L. Shoub, New York, writes: "Adlerika, in addition to its intestinal cleansing, checks the growth of intestinal bacteria and bacilli."

Dr. J. Weaver: "In my 50 years' practice, I have found nothing to excel Adlerika."

J. E. Puckett: "After using Adlerika, I feel better than for 20 years. Awful impurities were eliminated."

It will astonish you the great amounts of poisonous matter Adlerika brings out—matter you would never believe was in your system. In chronic constipation, gas bloating, sour stomach and sick headache, just ONE spoonful Adlerika brings wonderful relief. At leading druggists.

The Story Of The "Cow Country"—Part II

BY THE FIRST QUARTER OF THE NINETEENTH CENTURY, MANY ENTERPRISING AMERICANS, FOR THE MOST PART PLANTERS FROM THE SOUTH, HAD MIGRATED TO TEXAS, THEN A PART OF MEXICO, AND HAD ESTABLISHED COTTON PLANTATIONS.

THEY FOUND THE REGION IDEAL FOR THE RAISING OF CATTLE AND, ROUNDING UP THE WILD "TEXAS LONGHORNS" THAT GRAZED AT WILL OVER THE BROAD GRASSLANDS, THEY COLLECTED LARGE HERDS.

THE AMERICANS ADOPTED THE METHODS OF THE MEXICAN CATTLEMEN, AND SOON EXCELLED THEIR NEIGHBORS IN THEIR SKILL WITH THE LARIAT AND IN CONQUERING THE WILD INDIAN PONIES.

THESE FIRST AMERICAN RANCHERS ALSO CAME TO USE THE MEXICAN SADDLE WITH ITS HIGH POMMEL AND HORN, AND WORE THE WIDE-BRIMMED SOMBRERO AND LEATHER CHAPPAREJOS ("CHAPS") OF THE MEXICAN HERDSMAN.

ROCCO STOPS SCARNEY IN FOURTH ROUND

Right To Jaw Decides Bout

Rocco Takes Things Easy For Three Rounds, Then Cuts Loose

DIME PICKED ROCCO TO "KAYO" SCARNEY

By ED. FRITZ

After feeling his way for three rounds last night, Emmett Rocco, Ellwood City heavyweight, opened up with a tigerish attack and knocked out Young Scarney of Niles in the fourth round. The right to the jaw dropped Scarney like a rock and he was out for fully 15 minutes.

In the first session Scarney opened up with a left-handed attack to the face. Rocco fiddled around the ring feeling himself out, and when the session ended the Scarney element gave vent to their feelings.

Rocco assumed the aggressive in the second, but was wild. In the third the Ellwood City boy commenced punishing Scarney with rights to the stomach that had the promising heavyweight from Niles wincing.

"Tell Rocco to walk in and let his punches fly," said Jimmie Dunn of Cleveland to Joe Cumo, manager of Rocco. Cumo repeated Dunn's instructions to the tarzan of the Connoquenessing and when the fourth started Rocco cut loose.

He whipped blows to the head, sent lefts to the stomach, and catching Scarney with his hands down, he sent a lightning right to the jaw that dropped Scarney like a rock. He was out, cold as a herring, at 10.

Scarney was carried to his corner, but it was 15 minutes before he recovered in the dressing room. Rocco visited the dressing room of the beaten gladiator, after which he hurried to his home in Ellwood City.

Before the fight started Jimmie Dime, the astute manager and instructor, told the writer: "Rocco will win in a couple of rounds." After Rocco had opened up in the fourth he said again: "It looks as though Scarney will go quick."

Following the knockout Jimmie said that he believed the future held a fortune for Rocco. Among the others who slated the tarzan of the Connoquenessing to stop Carney, despite his promises, were Jimmie Dunn, Tom McMahon, Chauncey Davis, Henry Goldberg and the writer.

In the semi-final George Perotta, middleweight, of New Castle, gave Al Jackson of Cleveland a bad lacing in four rounds. Perotta fought a vicious two-handed fight, but he failed to drop Jackson for the count.

Perotta sent innumerable left hooks to the midriff in the first two rounds that almost laid the Clevelander away, but he abandoned this attack in the third for rights to the jaw that skimmered by Al's jaw and Jackson went the limit.

Joe Stimple lost to Jack Powers and Pickles Donohue won from Willie Polk in four-round bouts. Billy Wallace dropped Mike Polo in the first and Oscar Gardner and Lulu Peret of New Castle fought a four-round draw.

Franklin High Boys To Train For Track Meet

Coach Leroi Norton Issues Call For Track Candidates At Franklin Junior High

INTERCLASS MEET IS BEING PLANNED

Practice for the annual Ben Franklin interclass track and field day will begin soon.

All boys who are members of the Athletic association in good standing will be eligible for two events beside the relay. The meet will be held during the second week of May so every boy who plans to enter an event should begin to train as soon as the weather and the condition of the track permit.

Boys will compete against boys in their own weight class, which means that a small ninth grade boy may compete against a big seventh grade boy. There will be no limit to the number of entries from any grade and all the points won by the boys of each grade will be totaled to decide the winner of the meet. Last year the eighth grade finished first, with the seventh grade second and ninth grade and shop third and fourth respectively.

Two hundred and twenty boys took part in the events last year and it is hoped to have double this number this year.

The following events will be on the program: 75-yard dash, 100-yard dash, 120-yards low hurdles, one-half mile run, one mile run, 220-yard dash, 440-yard dash, 440-yard relay, one mile relay, pole vault, shot put, high jump, discus, broad jump, stunts, tumbling, pyramids.

Solomon To Box Vivio Tonight

Flashy Lightweight To Step Six Rounds With Pittsburgh Boy

Mickie Solomon, the flashy lightweight in the pugilistic camp of Eddie Weygant, tonight battles Young Vivio at McKeesport and before the night is o'er, Vivio will realize that he has been in a hot session. When right, Solomon can box and hit and while Vivio, who appeared here recently, is fast, Solomon will give him a hot fight.

Oscar Gardner, who fought Lulu Peret last night, and Young Tennessee will fight McKeesport opponents in preliminary bouts.

Weygant has also billed Young Tennessee, Emil Small, Johnny Pollock and Roy Minteer for fights at Ashtabula next week.

Tunney Signs With Rickards For 1929 Bouts

(International News Service)

MIAMI BEACH, Fla., April 12.—Gene Tunney, heavyweight champion of the world, has signed a contract with Tex Rickard giving the promoter control of his fighting services during 1929, he announced here Wednesday.

The contract has a clause in it which calls for one more fight for Gene during the remainder of 1928, the one scheduled with Heeney, and makes it plain that the terms are contingent upon Tunney retaining the title in 1929.

Tunney said that the contract was signed last night following several conferences between himself and Rickard and long distance telephone agreements between Gene and his manager, Billy Gibson. It was indicated by Rickard several days ago that he had a similar claim upon the services of Heeney.

SORDS' POINTS

Southerner Took Up Golf To Recover Health; Found It And Fame, Too

By JACK SORDS

About a dozen years ago Mrs. Dave Gaut, of Memphis, Tenn., was told to take up golf for her health's sake. She needed badly the fresh air and the exercise to be found on a course. With characteristic southern determination she plunged into the game in quest of health and found it, and fame.

Today, strong and expert at the game, she finds herself chairman of the women's committee of the United States Golf association, the first southern woman to hold that office, the highest honor that can come to a woman golfer.

Mrs. Gaut is also a member of the executive committee of the Women's Western Golf association, the Women's Southern Golf association, the Trans-Mississippi, the Pan-American and the Tennessee associations.

All this gives Mrs. Gaut the distinction of serving on more important golf committees than any other woman.

At present the Memphis star is getting in trim for a series of tournaments in which she will participate. Her campaign will take in widely separatted parts of the country this summer.

Followers of Mrs. Gaut's game say there is scarcely another woman golfer in the country who can beat her when it comes to approaching and putting.

Mrs. Gaut's sensational putting has won five Memphis titles for her, four Tennessee crowns, the Southern three times and the Western. She also has shone in several national events.

Twilight League Moguls To Meet

The Twilight league managers and officials will meet tonight at 8:30 in the Sporting Goods store on East Washington street to discuss plans for the opening of the loop in the next few weeks.

Ten teams have signified their intention to fight for the Lawrence County Twilight league pennant this year and the season should be an interesting one. The Mahonings and Clifton Flats are the two new teams in the circuit this season, making it a ten-team league.

Ready To Mate Rocco With Risko

Jimmie Dime Predicts Bright Future For Ellwood Boy

DUNN AND CUMO HANDLE EMMETT

By ED FRITZ

New York, Philadelphia, Cleveland and other big cities today can commence bidding for the services of Emmett Rocco, Tarzan of the Connoquenessing, who laid Young Scarney low in four rounds last night at Youngstown, according to Joe Cumo and Jimmie Dunn, who handled the big Ellwood City heavyweight.

Dunn and Cumo are ready to send him immediately against any of the higher-ups in the Art of Busting Noses and according to Jimmy Dime, the keen-minded manager and instructor, "Rocco has a brilliant future. He is a great puncher."

It is said that while Johnny Risko has been signed as a substitute for Tom Heeney, arrangements may be made some time this summer to shoot the big Ellwood boy against Johnny at Cleveland. Rocco is eager to clash with the rubber boy.

After last night's fight the big lad hurried over to the Ellwood City and New Castle fans delegation and after receiving congratulations, hurried to his home at Ellwood City where his aged parents were awaiting him.

Sport Ritticisms

By BILL RITT

College ball players with mustaches may cause a revolution in the diamond business. Their slogan is—why sacrifice a cookie duster for a baseball career?

* * *

Razor circles will be all agog if the movement spreads. It is the worst attack on the great industry of scraping chins since Charles E. Hughes ran for president.

* * *

The rise of the diamond sport saw the fall of soup strainers and zitses, hair by hair. However, pictures of early ball teams look like Santa Claus multiplied by nine.

* * *

So many balls were lost in the outfielders' hirsute appendage that beards were banished from baseball. It was a great blow to base stealers. No longer could they dive into a bag, protected from injury by their heavily upholstered jaws.

* * *

It was a great day when the last whiskers fluttered into eternity at the snip of the shears. It was like the unveiling of a monument though not so pretty.

* * *

The mustache may be manly and the beard a boon to an ambassador, but whiskers will never again be popular in the national pastime. It would be too much like bringing the bush back into the big leagues.

Baseball Season Is Under Way, Rookies Grab Off Spotlight

Recruits Play Important Roles As Major League Teams Swing Into Action

Pittsburgh Pirates Handed Drubbing By Cardinals; Yankees Top Athletics

By LES CONKLIN,
International News Service Staff Correspondent

NEW YORK, April 12.—As the excitement of opening day wore off the two pennant races simmered down today to the prosaic level of routine business.

Rookies grabbed a large share of the spotlight in the various inaugurals. And Cohen steped into Rogers Hornsby's shoes on the New York Giants and found them too small, for his three hits gave the Giants a 5 to 2 victory over Hornsby and his fellow Braves.

Arthur Whitney rookie third baseman from New Orleans, knocked in two runs as the Phillies downed Brooklyn 4 to 3. Other recruits who performed brilliantly were Chalmers Cissell, White Sox shortstop; Freddy Maguire, Cubs' second baseman, who hit a home run; Purdy of the Reds; Roettger of the Cardinals and Morgan of Cleveland.

The world's champion New York Yankees determined to stay in first place every day of the season for the second year in succession, routed Lefty Grove and beat the Athletics 9 to 3. Ruth hit a triple and Pennock twirled effectively.

Thirty-one base hits rent the ozone as the Cardinals took a 14 to 7 slugfest from the Pirates. Frisch and Bottomley each got three hits, including a homer.

Luque Tamer Cubs.

Adolfo Luque, Cincinnati mound ace tamed the Cubs 5 to 1. Harnett's wild throw let in two runs.

George Uhle the Cleveland pitcher who makes a good record every other season apparently is in for a winning campaign. He beat the White Sox 8 to 2 and helped win his own game with three hits.

George Moriarty Detroit manager, spent the afternoon wondering why he traded Heinie Manush to the St. Louis Browns. The former batting king scored two runs as the reconstructed Brownies trounced the Tigers 4 to 1. Sam Gray who twirled for St. Louis displayed the form which once made him the ace of the Philadelphia staff.

The sojourn of the Boston Red Sox in the first place in the American league standing was sweet but short. Four Sox pitchers issued ten passes and the Back Bay boys lost to Washington 8 to 4. Ken Williams got three hits including a home run.

Philadelphia's victory over Brooklyn marked the Robins' first defeat on opening day in eight years.

College Southpaw Pitches Perfect Game Wednesday

New York University Pitcher Holds Lehigh Hitless And Runless; Fans 13

(International News Service)

NEW YORK, April 12.—George Manfredi southpaw pitcher of the New York University nine was hailed today as the best college twirler in the east. He pitched a no-hit, no-run game against Lehigh here, retiring the first 23 batters. His mates played errorless ball and Manfredi fanned 13 batters but he issued one pass in the ninth.

Dempsey Will Confer With Tex Rickard

Former Champion May Be Thinking Of Meeting Either Risko Or Heeney

BAD EYESIGHT IS FABRICATION

By DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, April 12.—Some of our best people were not at all certain today whether they had been taken for an airy ride by Jack Dempsey's re-affirmed retirement of yesterday or actually had been admitted to the inner shrine of the great man's confidence but on one point they were marked with unison. From Leo P. Flynn down—or up, as the case may be—they were convinced that ill health has nothing to do with Dempsey's expressed desire to withdraw himself from circulation.

They know this to be so because one glance at the man was sufficient to confirm the suspicion that ill health and Jack Dempsey was irreconcilably estranged.

"All he needs for a man like Risko or Heeney is a good, brisk shower," was Flynn's judgment and, if Leo spoke as a manager, he did so merely for practice, since it was understood he was managing somebody who only a few minutes before had tacitly declared himself beyond all managerial aid. Still, absolute consistency is pretty much of a prize fight liability, as witness the storm of pessimism that greeted Dempsey a year ago because he avowed he wished to come back and the down right optimism with which they viewed him yesterday after he had declared himself out of the portrait for good or otherwise.

Needs Tune Up Fight

But, you ask, why talk of Risko and Heeney in connection with a man who insists he has retired? The answer is that the scoffers still exceed the true believers and probably will continue to do so until such time as Dempsey's actions cease to leave their purport open to doubt. For example, his declarations of good faith yesterday were followed by these seeming contradictions:

1. He made an engagement through Jess McMahon to confer with Rickard here on Sunday. The dissenters point out that this is the run-out day of the week for news scavengers. The Garden being closed, the choice of Sunday speaks for strict privacy and the boys want to know what a couple of old friends, meeting to pass the time of day, want with privacy.

2. He allowed himself to be taken off guard long enough to explain that the local commission's action in barring him from an immediate meeting with Tunney was all right with him because he would want a tune-up fight before another bout with Tunney, anyhow.

3. He refused to sign a statement, which placed in black and white what he previously had affirmed by word of mouth: that he was out of the ring for good.

4. He virtually admitted his story about bad eyesight was fabrication.

5. He kept "open house" at the Ambassador far into the night.

ATHLETICS-YANKEE GAME IS POSTPONED

(International News Service)

PHILADELPHIA, April 12.—The Athletic-Yankees American league baseball game scheduled to be played here this afternoon was called off shortly after 10 o'clock today. An April snow, sleet and hail storm that left an inch of mush and snow on the field at Shibe Park was responsible for the postponement.

Many Candidates For Tennis Team

Westminster Out-Door Courts To Be Put In Condition For Season, Next Week

NEW WILMINGTON, Pa., April 12.—Headed by Captain Paul Gibson, Westminster's varsity tennis candidates, winners of the conference title for the last three years, have been working out daily in the gymnasium for the last two weeks in preparation for the spring campaign. The indoor preparatory sessions have been limited to gentle stroking of the ball and to conditioning exercises.

Work on the resurfacing of the college courts will get under way next week so that outdoor practice will be possible. Due to delay in shipping the clay for the courts, work has been held up for more than a week.

Among those who will make a strong bid for varsity berths again this year are the five men who brought the championship to Westminster last year. Those include Paul Gibson, New Kensington; Ex-captain Frances McDowell, Jamestown; William Clark, New Wilmington; William Schafer, Youngstown, O.; and Richard Robinson, Massillon, O.

In addition to these men, the following freshmen have been reporting and may give the veterans some opposition: Frank Colegrove Coraopolis; Stephen Fraser, Ben Avon; Ray Marshall, Jamestown; and John Witherspoon, Ben Avon. Then, too, Irving Mansell of New Wilmington and Samuel Colman of Philadelphia, two juniors who have shown up well before, have again reported.

While the tennis schedule is not yet complete, the probabilities are that Westminster will open the season the first week in May by playing host to the Duquesne racqueteers at New Wilmington.

Jack Dempsey Is Through For Good Tells His Friends

(International News Service)

NEW YORK, April 12.—Jack Dempsey, former heavyweight boxing king, came to town Wednesday and declared that he was an honest-to-goodness retired ex-champion.

"I wouldn't return to the ring for $50,000,000," Dempsey asserted.

It was pointed out that $50,000,000 is considerable money.

"I think I'm sincere in saying that," said Jack.

"I meant it when I said I had retired. I am still able to walk and tell the time of day and I want to stay that way."

Offer $200 Reward For Chicken Thieves

(Special To The News)

MERCER, Pa., April 12.—Mercer county commissioners have offered a reward of $100 for the arrest and conviction of the band of chicken thieves that have been making depredations of the poultry farms of the community for the past three months and the Pennsylvania Poultry Association have added another $100 reward for the arrest and conviction of the thieves.

Every effort will be made to run down the gang that have been working so boldly during the past months and it is likely they will get the full extent of the law if caught and convicted.

Diamond Notes

The Acme baseball team will hold a practice session at 10 o'clock on Saturday morning at the Colonial field. A short business meeting of the team will be held prior to the start of practice. The Acmes wish to schedule games with all fast junior teams between the ages of 15 and 18 years. For games see or write to Manager Garvin, or call 1186. The following are asked to attend the practice on Saturday: McLaughlin, Stone, Blaha, Alexander, G. Jones, A. Jones, White, Smith, Johns, Sage, Thomas and Pollack.

The Smiths' baseball team is getting ready for the coming baseball season and hope to be represented by a strong team in junior circles. The Smiths will play most of their games out of town, meeting the following teams: Youngstown All Stars, Sharon Elks, Warren Times, Brackenridge Independents, Penn-State, Tankers of Youngstown, Castletons and the Lindsey club of Pittsburgh. The following players are asked to attend a meeting on Sunday at Daums Place at 2:30 o'clock: J. Rosen, J. Bartlett, F. Faroni, J. DiMuccio, R. Dimuccio, V. Banjo, J. DiThomas, S. Day, T. Sheldone, M. DiMuccio, A. Venditto, T. Mastern, L. Banjo, J. Ross, P. Ross, M. DiThomas and any other player wishing to try out for the team this year.

FIRE DAMAGES T. J. DAVIES' CAR

Fire the cause of which has not been fully determined, but which may have been caused by crossed wires, this morning about 5:25 o'clock badly damaged the car of T. J. Davies, 414 Young street, also the garage in which it is being kept. The loss to the car is estimated $500 and to the garage at $50. Mr. Davies returned from work about 1 o'clock this morning in the car and everything was all right then. The fire apparently started in the front end of the Davies car as it was practically ruined at that part of the machine.

Verdict Of $10,000 Awarded In Morse Suit For Damages

In the United States district court in New York City, a Lawrence county attorney has just been returned victor in a damage suit arising out of the death of Carl W. Morse of New Wilmington on November 30, 1926. Attorney William McElwee, Jr., of this county and Attorney Simone N. Gazan of New York City prosecuted the case for the parents of the deceased man and won a verdict of $10,000.

Mr. Morse was employed on the steamship Hatteras plying between Norfolk, Va., and European ports. On November 30, 1926, an accident occurred aboard ship which the parents believed due to negligence upon the part of the company owning the boat. The suit resulted, and was tried several days ago in the court mentioned above.

N. Y. STOCKS

(International News Service)

NEW YORK, April 12—Without fundamental changes in the business and financial outlook, the "bullish demonstration" in United States Steel and General Motors was continued at the beginning of trading today. A single block of 35,000 shares of Steel common at 153½ to 154 on a split opening, and a 2-point jump to 198 for General Motors for 15,000 shares, sounded the approach of the bulls for the new session, and numerous 2-to-3-point advances took place before the end of the first hour in representative industrial and specialty stocks.

Encouragement was also extended to the bullish drive by the continuance of large scale steel output and the maintenance of high operations of steel plants. Bethlehem is operating at 84 per cent of capacity, and officials of the company are quite hopeful of dividend resumption this year. At 154 United States Steel scored a new high price for the year while Bethlehem at 66½ duplicated its 1927 high record. Crucible Steel, Youngstown and American Steel Foundries sold higher.

Consolidated Gas furnished brilliant leadership in the public utility group, the stock selling above 150 for the first time.

National Power and Light and other low-priced utilities were strong. Radio and Mack Trucks were again under selling pressure and most of the oils lost ground.

United States Steel could not hold its high position and dropped back to below 152 in the second period.

WHERE FATHER KILLED CHILDREN

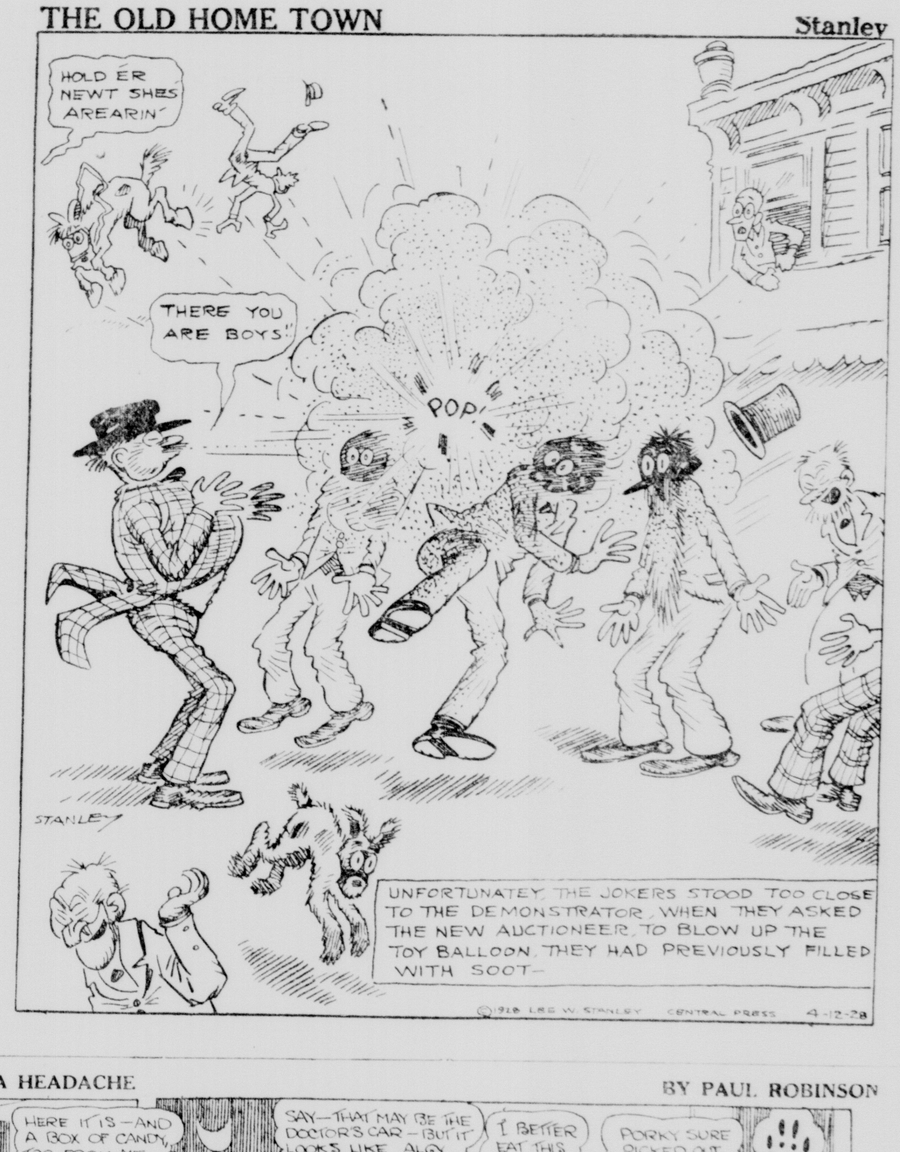

This photo shows the home of Ray Robertson, lumberjack, near Durham, N. C., who has been arrested and charged with the slaying of his three children, Cecil, 12; Lois, 9, and Joseph 4. The children were killed in the room indicated by the arrow, and then carried out in front of the building where they were hacked with an axe. A car near the house was cut up, chickens killed, and a horse injured by the slayer.

WORLD'S SMALLEST GRAIN PLANT

This grain elevator, believed to be the smallest actually engaged in the trade, is situated at Interior, S. D., a town in the heart of the Bad Lands. When construction on the tiny plant was begun, everyone joked about it. Since then it has become a prosperous and busy place, many carloads of corn, flax, wheat and alfalfa seed being shipped from it.

Minstrel Show Pleases Crowd

Young People Of St. Vitus Church Score Big Success In Show

MANY FEATURES MARK PROGRAM

Displaying the talent of Broadway professionals a group of young women and young men of St. Vitus' parish of this city, presented their first annual Minstrel Revue before a packed audience in the Benjamin Franklin Junior High school auditorium Wednesday evening.

Anyone present would have imagined that they were nestling in a seat of some New York theatre for the way in which the amateurs performed was surprising.

Michael Ross was master of ceremonies during the first act. Most of the time, however, with all due credit to Mr. Ross, the audience was paying attention to the premier end men, Ernie Palus and Harry E. Ross. These two provided the majority of the evening's fun with their witty jokes and other home-made wise-cracks. The funsters assisted Mr. Palus and Mr. Ross in their fun making and added much to the foolishness of the six who were scheduled to crack the jokes. The funsters were Peter Mele, Peter Lombardo, Albert Augostine and Louis Ross.

The remainder of the first act was taken up with vocal selections by different members of the choruses. They performed well and it was a pleasure to hear the different range of voices, from soprano to bass and back again.

During the intermission Steve Griffith, orchestra master and his son, a master-to-be took charge of things. With his boy, Steve, Jr., pounding on the bass drum, Steve, Sr., entertained the audience with several bass drum-piano selections. His boy scored a hit and Mr. Griffith did too.

Then came "Just a Wee Little Bit of Opera" with Mary Damato at the piano and Mabel Mastrangelo, V. Conti and E. Strizzi rendering several vocal selections.

In scene two of act two Frank Colao, Harry Ross, Ernie Palus and Mike Ross demonstrated their cleverness again in a new comedy act entitled "Giddap Garibaldi."

Scene three of act two, featured by another comedy, "The Bowery Night School," marked the close of the enjoyable program. The characters in this were as follows: The teacher, Madame Martine; school directors, Leo Ross; Alderman Hogan, Emilio Strizzi; Mickie DeBite, Harry Ross; Issy Letzosky, P. Mele; Hans Swartheimer, Peter Mele; and Gong Sing, Peter Lombardo.

The special program which had been arranged for the day of school was presented and was as follows:

Song—M. Vitale.
Doll dance—Theresa Lombardo, L. Cubellis, Ross and May Richards.
Song—Carl Cialella.
Dance—G. Christopher.
Specialty—Steve Griffith, Jr.
Song and Dance—Harry Ross.

The minstrel revue, given for the benefit of St. Vitus' parish was planned under the personal supervision and direction of William N. Chill.

Music for the evening was furnished by Steve Griffith's orchestra.

At one time during the evening's performance "Bill" Chill presented a Bible and flowers to Father Nicholas DeMita, pastor of St. Vitus' parish and to Father DiRanna, his assistant. In return, Father DiRanna, presented flowers to "Bill" for his services in connection with the revue.

The entire cast of performers acted their parts in a splendid manner and deserve much credit for their untiring services in making the minstrel possible.

Roaming Round With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

As a vehicle of entertainment, the old time minstrel show is not as popular today as it once was. Revues, and musical comedies and vaudeville have taken the place, largely, of the black face entertainers but those of us who once went to them at every opportunity, the minstrel show still has its old time appeal.

Somehow, when the curtain goes up revealing a circle chorus, with its whoopla and its clatter of tambourines, there are still some of us who can settle back into the seat and say, now for some entertainment.

And last night that opportunity was present when the boys and girls of St. Vitus church presented a minstrel revue in the Franklin Junior High School.

Somewhere in today's issue of The News, Bruce Ewing tells you just how good the show was and his word is good, but to that I just want to add my own appreciation of a well staged show, costumed cleverly, and presented by splendid singers.

It was called an amateur production but it hasn't been so long since a professional minstrel show came to New Castle and gave us a show far inferior to that of last night. Bill Chill and his cohorts deserve a lot of credit. And that idea of putting girls in the second circle was a clever idea.

Some of you can go back to Haverly's Minstrels, or Primrose and West, but my farthest recollection goes back to Honey Boy Evans, Neil O'Brien, Lew Dockstader and Eddie Leonard, Lasses White and the original Fields Minstrels.

As a kid I followed the "mammoth outdoor parade" which was held at noon of the day of the show. Those dapper suits and canes intrigued me and the band always was good for a thrill. And then the opening chorus. A blare of brass and a ruffle of drums, a curtain slowly rising and a circle of singers swinging into some popular melody.

Minstrel shows are passing rapidly, but they will always have a peculiar appeal. And insofar as I can remember I never heard an off color story in a minstrel show, nor a suggestive song. Perhaps that's one reason why the American stage today sees so few of them, they were too clean.

Action follows thought very quickly, in the case of N. A. Smith, garage man of Sycamore Alley. Smitty is a flying fan and the idea of roof signs hit him favorably. Wednesday he got himself a bucket of white paint and painted on both sides of the roof of his garage, "New Castle" in six foot letters. In addition he painted a long white arrow with an N on the tip of it, pointing north. Fred Marsh, the painter has had a roof sign for about a week, and the Kiwanis Club has promised to take up the idea and foster it.

There is one plant that offers wonderful possibilities for a roof sign, that of the Buckeye Overall Company out on the East Side. They could paint New Castle on the roof there in 12 foot letters and if Mike Fisher reads this colyum he can have the idea gratis.

William I. Clark suggests that some public spirited citizen who has a large roof at his disposal put in a night sign. Either a flat sign in electric bulbs or a sign which would be flooded with lights for night flyers.

This is a big day, aerially, for New Castle. Clarence D. Chamberlin is the guest of the city and the city is proud of that fact. Anybody who can hop across the Atlantic Ocean to Germany must know something about an airplane and it isn't taking any credit away from Lindbergh to say that Chamberlin is a wonderful birdman.

Roamed around the cement quarries Wednesday afternoon with the discoverer of hairy fish, Wes Davy. Wes still insists that Nova Scotia produces fish with a full set of chin whiskers, but Charley Dinsmore and myself still have our doubts. Now if Wes had said a goatee or maybe a mustache it might have been different, but a full set of whiskers is too much hair for Charley and myself.

The most common diet mistake in the world

—correct it as thousands of others have

MILLIONS fool themselves three times a day. They take caffein with their meals because they *think* caffein has an immediate bracing effect.

Actually, it's the warmth of the beverage that gives you that instant feeling of comfort. The caffein gets in its real work later. Then this artificial stimulant lashes your nerves—repels sleep—drives your brain on when you long to rest.

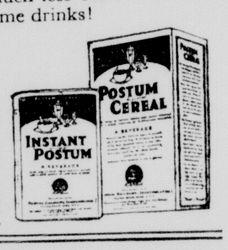

Correct the mistake —this way!

Eliminate caffein from your diet for thirty days—use Postum as your mealtime drink! See what a difference this one simple change in diet can make!

You'll lose nothing in mealtime enjoyment—you'll lose only the regrets that caffein leaves behind it. Postum's friendly warmth and rich, full-bodied flavor will give you the immediate satisfaction you desire. And afterward—Postum won't get on your nerves, won't rob you of sleep, won't disturb digestion, as caffein beverages do. For Postum is made of roasted whole wheat and bran—no trace of any artificial stimulant in it! A drink quickly made—with a distinctive flavor millions prefer!

Order Postum today—start the 30-day test! Then, on a basis of results, decide if you will ever go back to mealtime doses of caffein! Your grocer has Postum in two forms—Instant Postum, made instantly in the cup, and Postum Cereal, prepared by boiling. Both cost much less than most other mealtime drinks!

Parents-Teachers Meet On West Side

Dr. Green, Superintendent Of City Schools And B. K. Thacker Are Principal Speakers

West Side Parent-Teacher organization met in the school auditorium Tuesday evening with the president, Mrs. Earl Sweesy, presiding.

Miss Elsie Kivine reported that the library committee had purchased new books and invited all present to visit the library to view the new selections.

Mrs. Chauncey Davis, chairman of the welfare committee, stated that they had sent out two baskets during the present month to the needy of the district.

Miss Mathews announced that a paper and magazine sale would be conducted by the teachers and pupils during the spring housecleaning season, the proceeds to be used to aid the library fund of the school.

Mrs. Hilliard announced that the parents would present a play in the school auditorium before the close of the school term. Mrs. Sweesy appointed the following to take charge of the arrangements: Mrs. Hilliard, chairman; Mrs. Samuel McBride, Mrs. Chauncey Davis, Miss Elsie Kivine and Miss Beatrice Bruce.

Dr. C. C. Green spoke of the commendable aims of the society. He stated that striving to attain such goals makes for success.

B. K. Thacker, principal of the North Street Junior High school, made a very instructive address concerning the need of and the work done by the junior high school. Mr. Thacker showed lantern slides of the three floor plans of the George Washington Junior High school, now under construction in our city.

The pupils of the North street school presented a short operetta entitled "What's the Matter with Sally?" The pupils were very well trained and the performance was enjoyed by all present.

THIS AGE

"To finish up this affair let's make an appointment for next week. Would Thursday suit you?"

"Thursday is out of the question. I am going to America then."

"All right, Friday."—Tit-Bits, London.

Blast Damages Baltimore Home

Ignoring Two Threat Letters, Brings Bombers To Italian Home In Baltimore

(International News Service)

BALTIMORE, Md., April 12—Because John Romano, 51, ignored two threatening letters demanding $5,000, a bomb wrecked his house in East street, an Italian settlement, early today and badly damaged 20 other homes in the neighborhood. Ramano, his wife and 20 other occupants of the damaged homes were badly shaken up and slightly injured. Windows were smashed throughout the neighborhood.

A pedestrian, knocked down by the blast, told police the bomb was hurled at Romano's door by a man from a speeding automobile.
